

- Should delivery be allowed?  
**Yes**
- Requirements for delivery eligibility:  
**1099 or W2 employees owned and operated companies should be allowed to deliver in Louisiana.**
- Licensing:  
**Yes, a state license is required for delivery companies.**
- Enforcement:  
**Audit ability for ATC, reporting requirements from delivery companies**
- Should restrictions or prohibitions be placed on deliveries to certain areas such as college campuses?  
**As long as person is 21 years of age and matches name of person ordering, there should be no restrictions or prohibitions for delivery areas (dry areas of state will be excluded from alcohol delivery service)**
- Delivery radius:  
**No restrictions on delivery radius. This can be set by the account or the delivery company for purposes of quality and safety of products being delivered. The concern with delivery radius is the impact of the entire state in mind for deliveries- For Example: 10 mile radius for a delivery in Baton Rouge could take longer than a 20 mile radius in Lake Charles.**
- Should legislation address training requirements for delivery persons?  
**RV Training required for alcohol delivery employee**
- Recommendations from your organization, agency, or industry?

**Delivery companies can deliver from restaurants, retailers, convenient stores, package stores, and manufacturers.**

**No food requirement.**

**No limits on deliveries.**

**Allow accounts to create delivery service with ability to hold state created alcohol delivery permit.**
