However, Louisiana law often conflates the term “exclusion” with “exemption,” such that the former may be used to describe a mechanism that might be better characterized as the latter.

Excise tax – a fixed, per unit tax imposed on a commodity or commodities.

Federal adjusted gross income – the amount of income earned or received during the year after certain exclusions and adjustments according to federal law.

Franchise tax – a tax imposed on business corporations for the privilege of conducting business in Louisiana. Petroleum taxes – a tax on motor fuels such as gasoline and special fuels including diesel, compressed natural gas, liquefied natural gas, and liquefied petroleum gas.

Preferential tax rate – a provision which provides a tax rate for certain persons, types of income, transactions, or property that results in reduced tax revenue.
