# Annual Tax Exemption Budget

## Part 1

### *Introduction*

#### **Statutory requirements**

The Louisiana Department of Revenue is required by Section 1517 of Title 47 of the Louisiana Revised Statutes to prepare an annual tax exemption budget. This report must include the following information pertaining to the state's tax exemptions:

1. Listing of each exclusion, exemption, credit, refund, preferential tax rate, or deferred tax liability
2. Legal citation
3. Purpose
4. Estimate of the revenues lost for the preceding three years
5. Estimate of the revenues lost for the current and ensuing fiscal year
6. Estimated cost of administering and implementing each exemption for the five years reflected in this report.

The Department is able to provide all of the required information except for the costs of administering and implementing each tax exemption. We do not have the data available to estimate these costs with any degree of accuracy.

In addition to the above data, this report must also contain the following information as it applies to specific tax exemptions:

- A determination of the tax exemption's effectiveness in fulfilling the purpose for which it was enacted; i.e., did the intended recipient benefit and, if not, who did benefit;
- An assessment as to whether the tax exemption is the most fiscally effective means of achieving its purpose;
- An evaluation as to whether unintended or inadvertent effects, benefits, or harm was caused by the tax exemption, including whether the tax exemption conflicts with other state statutes; and
- An evaluation as to whether the tax exemption simplifies or complicates the state tax statutes.

#### **Contents of the Report**

In addition to the Introduction (Part 1), the report consists of an Overview (Part 2), a Five-Year Estimate of Revenue Loss (Part 3), and a Listing of Exemptions (Part 4).

Part 2, the Overview, provides a general discussion of the tax exemption report and additional information on tax collections by the Department of Revenue.

Part 3, the Five-Year Estimate of Revenue Loss, is a listing of each exemption and the fiscal losses for the preceding three years, the current year, and the ensuing year as required. Preceding the listing is a summary of all taxes arranged in order of the magnitude of the revenue loss.

Part 4, the Listing of Exemptions, is arranged alphabetically by major tax type and provides the following general information on each tax exemption: the legal citation, legislative origin, effective date, purpose, and administration. Each section begins with an index listing individual tax exemptions, the legal citation, and page number. The index is followed by a general discussion of the tax, the tax base, rate of imposition, and any recent significant changes to its imposition or administration.

### *Introduction*

The state's tax laws authorize a large number of exemptions, exclusions, deductions, credits, preferential tax treatments, and tax deferrals that substantially reduce the tax collection revenues. These special provisions are designed to encourage certain activities or to limit the tax burden on specific individuals or endeavors. The purpose of this report is to provide a comprehensive listing of all tax exemptions and to quantify the fiscal cost of the various tax exemptions, exclusions, deductions, and credits.

### **What is a tax exemption?**

For the purpose of this report, the term *exemption* is used to describe all exemptions, exclusions, deductions, credits, preferential tax treatments, and tax deferrals. Tax exemptions are tax dollars that are not collected and result in a loss of state tax revenues available for appropriation. In this sense, the fiscal effect of tax exemptions is the same as a direct fund expenditure. This report includes all tax exemptions provided for by state statutes for taxes administered by the Department of Revenue.

### **State exemptions versus total exemptions**

There are several statutory tax exemptions that are also prohibited from taxation by the state constitution, federal laws, or existing reciprocal agreements. Because of these additional prohibitions, repeal of the exemption alone would not yield the fiscal effect indicated. For this reason, these exemptions are separately grouped at the end of each tax section.

### **Measuring the tax exemptions**

In order to accurately interpret the data contained in this report, the methods of calculation and assumptions should be noted.

All revenue loss estimates in this report are based on information gathered from various sources. The most reliable information was obtained from the actual tax return data. Unfortunately, this information was not always available and other sources were used. This was the case for many of the sales tax exemptions.

In estimating the fiscal effect for each exemption, the following assumptions were made:

- Each tax exemption revenue loss was considered separately and it was assumed that all other elements of the tax system remained unchanged.
- The calculations of the revenue loss for a specific tax exemption did not consider any side effects that could result from the removal of any other exemption in another tax.
- Each estimate was made in isolation. If two or more items were eliminated within the same tax, each adjustment was computed independently.
- All estimates are only as good as the assumptions used to complete the necessary calculations. If little data was available, the estimates included numerous assumptions.

### **Terminology**

For the purposes of this report the following terminology is used to describe the fiscal effects:

- *Negligible* is used if the tax exemption was estimated at \$10,000 or less;
- *No data* is used to indicate that data was not available from any source to estimate the past revenue loss;
- *Unable to anticipate* is used to indicate that data was not available from any source to predict the future revenue loss; and,
- *NRR* is used to indicate that there is no reporting requirement for the data. This was generally the case for income tax and corporation franchise tax exemptions. Many of the corporations exempted are not required to file tax returns. For this reason, we do not have data available to calculate the fiscal effect for these exemptions.

### **Sales Tax – A special situation**

Estimation of the fiscal effect for sales tax exemptions is complicated by the suspension of exemptions beginning in 1986.

In 1986, the effectiveness of the exemptions was temporarily suspended for one year under a House Concurrent Resolution resulting in the taxation of sales, services, and rentals that had previously been nontaxable, including food and utilities. The suspended exemptions were taxed at the rate of one percent. This suspension has been continued through a series of Resolutions and Acts at various rates of suspension. The current suspension of exemptions was passed in the 2004 1st Extraordinary Session. Special Legislative Sessions to extend the suspension through June 30, 2009.

Until the suspension of the exemptions began in 1986, the primary method of extending any tax benefits to taxpayers was through the exemption statutes under R.S. 47:305. In addition, the definitions under R.S. 47:301 contain exclusions that are not affected by the suspension of exemptions. In order to extend tax relief to taxpayers, the Louisiana Legislature began enacting exclusions from the tax under the definitions in R.S. 47:301, rather than the exemptions under R.S. 47:305. Some of the exclusions replaced existing exemptions that were taxable under the suspension of exemptions. This action resulted in two statutes affecting the same subject. In 1998, the Louisiana Legislature repealed most of these exemptions leaving only the exclusion as the statutory authority.

Legislation to suspend most exemptions at the four percent state sales tax rate for fiscal years 2005-2009 was enacted during the 2004 1st Ex. Sess., Act 4. Effective July 1, 2003, the state sales tax rate on sales of steam, electric power or energy, water, and natural gas for other than residential use is taxed at 3.8 percent. On January 1, 2006 the state sales tax rate on sales of electric power or energy and natural gas was reduced to 3.3 percent.

There are some special words or terms used in the sales tax section. These terms and the meaning of these terms are as follows:

- “Suspended” is used to indicate that a particular exemption is being fully taxed because of the suspension of the exemption; hence no fiscal loss.
- “See Number (N)” indicates that the fiscal impact for that exemption is included with the fiscal impact of the referenced exclusion/exemption. This will apply to those exemptions that have been superseded by an exclusion or grouped with a like exclusion/exemption.

### **Other Credits – Corporation Income and Franchise Taxes**

Several of the corporation income tax and franchise tax credits are combined on one line on the 2003 tax return. For this reason, we are unable to calculate the individual losses for these credits, but we are able to determine the total revenue loss. We have grouped these credits together under the heading Other Credits and the total revenue loss is shown on the table for fiscal year 2004-05 only.

### **Tax collections versus tax exemptions**

The largest fiscal losses due to tax exemptions stem from five major taxes: sales tax; income tax, which includes individual and corporation; severance taxes; petroleum products tax;; and corporation franchise taxes. The bar graph on page 5 compares the revenue loss from these tax exemptions with the tax collections for FY 2006-2007. The comparison includes only the state tax exemptions; exemptions that are also prohibited from taxation by the state constitution, federal laws, or existing reciprocal agreements are omitted.

In theory, the actual tax collections plus the tax exemption revenue losses should equal the total potential tax collections. The tax exemption revenue losses were divided by the total potential collections to arrive at the percentage of tax loss.

### **Top tax revenue losses**

Sales, individual income, and corporation income taxes are the taxes with the largest fiscal losses due to statutory exemptions. Analyses of the various exemption categories for these taxes for FY 2006-2007 can be found on pages 6 through 8. In categorizing the various exemptions, only state tax exemptions were included. Exemptions that are prohibited from taxation by the state constitution, federal laws, or existing reciprocal agreements were not considered.

### **Comparison of major tax exemptions**

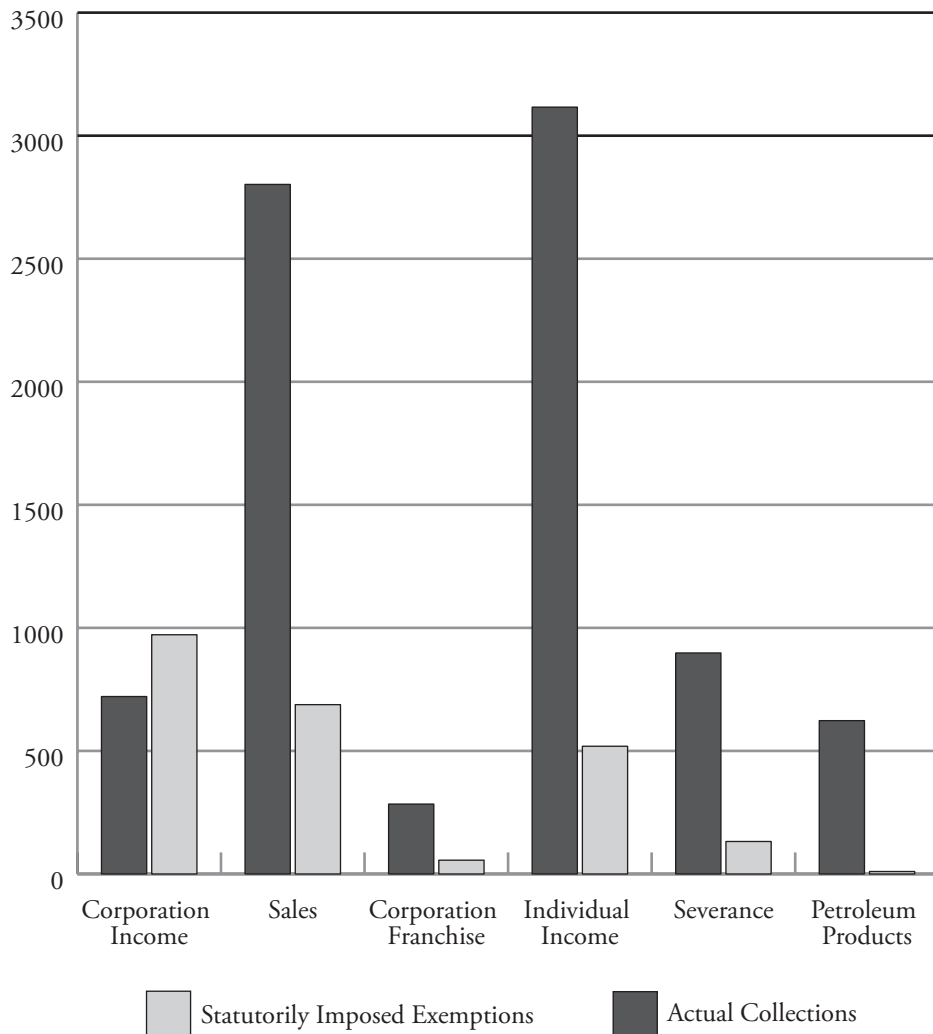

Comparisons of the major tax exemptions for the sales, individual income, and corporation income taxes with the exemptions allowed in southeastern states can be found on pages 10 through 12. In categorizing the major exemptions, statutory and constitutionally protected exemptions were considered.

3	The deduction for I.R.C. Section 280(C) wage expense, established in 2006, is effective for taxable periods beginning after December 31, 2003. There is no reporting requirement for tax years 2004-2006.
4	The fiscal effect assumes no restrictions on eliminating this deduction. Assuming that to reduce this deduction below the levels in effect January 1, 1974, would require a constitutional amendment, 58 percent of the fiscal effect should be considered protected.

# Corporation Franchise Tax

## Introduction

---

The Louisiana corporation franchise tax was enacted in 1932. The tax was imposed on every domestic corporation and every foreign corporation authorized or doing business in the state, or using any part of its capital, plant, or any other property in the state. As originally enacted, the tax levied was due and payable for the privilege of carrying on or doing business, exercising of its charter or the continuance of its charter within the state.

An initial tax return covering the period beginning with the date the corporation first becomes liable for filing a return and ending with the close of the accounting period, must be filed on or before the fifteenth day of the third month after the corporation first becomes liable. Thereafter, an annual return is due by the fifteenth day of the fourth month after the close of an accounting period. The tax is due on the first day of the calendar year or the taxpayer's fiscal year.

The law has been amended many times since 1932. However, an amendment in 1970 to replace the privilege of doing business language in the original act with the statement that the tax levied is due and payable on any one or all of the incidents referred to in the law was one of the more important amendments.

## Tax Base

Capital stock, surplus, undivided profits, and borrowed capital

## Tax Rate

The tax is currently assessed on the taxable base at the rate of \$1.50 per \$1,000 on the first \$300,000 and \$3.00 per \$1,000 over \$300,000. The tax is based on the larger of the assessed value of all real and personal property in the state or the amount of issued and outstanding capital stock, surplus, undivided profits and borrowed capital attributable to Louisiana.

## Types of Tax Exemptions

Corporation franchise tax exemptions are in the form of exemptions/exclusions, deductions, and credits. Exemptions/exclusions generally refer to organizations or corporations that are statutorily exempt from the imposition of the corporation franchise tax due to the nature of their operation. Deductions are generally defined as a reduction to the taxable base. Credits are generally defined as a reduction to the amount of tax due. All tax exemptions related to the corporation franchise tax are listed in this report.

# Gift Tax

## Introduction

The Louisiana gift tax law was enacted in 1940 to complement the inheritance tax law. With minor exceptions, it was patterned after the federal gift tax law.

The gift tax is imposed on donations between living persons, real or disguised, and transfers for an inadequate consideration in money's worth. It is irrelevant whether the transfer is in trust or otherwise, or whether the property is movable or immovable, corporeal, or incorporeal.

Acts 2007, No. 371 repealed gift tax for gifts made on or after July 1, 2008.

## Legal Citations

R.S. 47:1201 through 47:1212

## Tax Base

The tax base consists of the true and full value of property transferred by gift (donations between living persons) based on the interest conveyed at the date of transfer. The tax base also includes the value of property transferred with donative intent for an amount less than adequate consideration in money or money's worth based on its true and full value at the date of transfer.

## Tax Rate

The tax rates are two percent of the first \$15,000 total sum of gifts in excess of the annual exclusion and specific lifetime exemption and three percent of any excess over \$15,000.

## Types of Tax Exemptions

Gift tax exemptions are in the form of exclusions and exemptions. Exclusions are the portion of the true and actual value of a gift that is excluded from the tax base by statute. Exemptions are the true and actual value of gifts included in the tax base, but specifically exempted from the tax imposed.

## Significant Changes

### Fiscal Year 2006-2007

# Hazardous Waste Disposal Tax

---

## Introduction

---

In 1984, Act 8 of the First Extraordinary Session, levied a one-time tax on the hazardous waste content of the land. The tax was at the rate of \$2 per ton of waste disposed or stored in the land during 1981, 1982, 1983, and the first six months of 1984. This tax was administered by the Department of Environmental Quality, but collected by the Department of Revenue.

Also, by this same Act, the hazardous waste disposal tax was levied on the disposal of hazardous waste in Louisiana and on certain storage of wastes. The disposal tax rates were set at \$5 per dry-weight ton of waste disposed at the same site where produced or generated and \$10 per dry-weight ton of waste disposed or stored at a site other than where produced or generated. The tax was deemed collectible from the generator of the hazardous waste, if the generator disposed of his own hazardous waste, or from the disposer who must collect the tax from the generator of the waste at the time that the disposer received the waste. All generators and disposers must be registered with the Louisiana Department of Environmental Quality.

In 1988, Act 655 increased the rates to \$10 per dry-weight ton of hazardous waste disposed on site and \$20 per dry-weight ton of hazardous waste disposed at another site. This act further provided that the rates would increase \$1 per year until 1998. Additional provisions of the 1988 Act were the imposition of a tax of \$25 per dry-weight ton of extremely hazardous waste disposed in Louisiana and for the taxation of waste imported into Louisiana for disposal or storage.

The tax rates were again increased in 1990 by the passage of Act 391. This legislation changed the rates from \$10, \$20, and \$25 per dry-weight ton to \$30, \$60, and \$100, respectively. An additional provision allowed a credit of 0.5 percent of the tax due for collecting and remitting the tax timely. A tax on the transportation of hazardous and extremely hazardous wastes was also levied at the rate of \$25 per gross-weight ton of hazardous or extremely hazardous wastes transported in Louisiana for disposal or storage in Louisiana.

During the 1992 Regular Legislative Session, Act 526 was enacted which reduced the tax on the disposal of waste at a site other than where produced from \$60 per dry-weight ton to \$40 per dry-weight ton. This legislation also repealed the tax on transporting hazardous or extremely hazardous waste effective July 1, 1992.

*Imported wastes* produced out-of-state and disposed in Louisiana are taxed at either the current effective tax rate or at the rate that would be paid for disposal in the generating state, whichever is higher.

# Corporation Income Tax

---

## Introduction

---

The Louisiana corporation income tax was authorized by the 1921 state constitution. The first tax was levied in 1934 at the rate of four percent of corporate earnings exceeding \$3,000. In 1977, Louisiana raised the income tax rate from a flat rate of four percent to a five-tier tax rate schedule that ranged from four percent of the first \$25,000 of taxable income to a maximum of eight percent of the taxable income exceeding \$200,000.

Like many other states that impose a corporate income tax, Louisiana closely follows the federal system. That is, the state employs the federal definition of income and deductions with certain modifications. Act 16 of the First Extraordinary Session of 1986 enacted R.S. 47:287.2 through 47:287.785 relative to corporation income tax and provided for the conformance of this tax to the federal tax system.

For multi state corporations, Louisiana net income is generally determined through formula apportionment. Under the formula apportionment method, total net income is generally apportioned to Louisiana based on the average of three factors: property, revenue, and wages. Louisiana allows a deduction for federal income tax in computing taxable income.

Domestic corporations organized under the laws of Louisiana, unless specifically exempted, must file an income tax return each year. Foreign corporations, organized under the laws of other states, who derive income from Louisiana sources, regardless of whether or not they have net income, must file an income tax return unless specifically exempted.

An income tax return must be filed on or before the fifteenth day of the fourth month following the close of an accounting period.

## Tax Base

Taxable income earned within or derived from sources within Louisiana

## Tax Rate

Four percent on the first \$25,000; five percent on the next \$25,000; six percent on the next \$50,000; seven percent on the next \$100,000; eight percent on the taxable income above \$200,000.

## Type of Tax Exemptions

Corporation income tax exemptions are in the form of exemptions/exclusions, deductions, and credits. An exemption/exclusion generally means that a corporation is statutorily exempt from the imposition of the corporate income tax because of the nature of the corporation's business or a specific item of income that is not taxed. Deductions are generally defined as a reduction in net income to arrive at taxable income. Credits are generally defined as a reduction to the amount of tax due. All exemptions related to corporation income tax are contained in this report.

The federal income tax deduction, although a statutory deduction, is also required by the state constitution. Repeal of this deduction requires a vote of the people. For this reason, this deduction has been separated from the others and appears at the end of this section.

A deduction is allowed for expenses that are disallowed under IRC 280(C) for wage and salary expense. Under IRC 280(C), if an employer elects to claim the credits, the employer must also reduce his or her federal deduction for wage and salary expense by the dollar amount of certain credits claimed. ## Introduction

Louisiana's individual income tax was first imposed in 1934. The tax is assessed on a resident individual's income derived from all sources and a nonresident individual's income derived from Louisiana sources. Resident individuals are allowed a credit for income tax paid to other states on income that is also taxed by Louisiana.

Like other states that impose a personal income tax, Louisiana closely follows the federal system utilizing the federal definition of income and deductions with certain modifications. Louisiana tax-table income is a modified federal adjusted gross income less federal income taxes paid.

The income tax base is partially diminished by a combined personal exemption/standard deduction of \$4,500 for single filers and married taxpayers filing separately or \$9,000 for married taxpayers filing jointly, head-of-household filers, and qualifying widowers. Additional \$1,000 deductions are given for each dependent and each taxpayer who is blind or 65 years of age or older.

Any resident, nonresident, or part-year resident required to file a tax return must do so by the fifteenth day of the fifth month after the close of their taxable year.

## Tax Base

The tax base is comprised of federal adjusted gross income less federal income tax with adjustments for other modifications to federal adjusted gross income. Acts 2007, No. 399 reinstated the deduction for federal itemize deductions that exceed the federal standard deduction effective for the 2007 tax year.

The income tax brackets have been revised for all taxable periods beginning after December 31, 2002, with the passing of the amendment of La. Const. art. VII, §4(A) and passing of La. Const. art. VII, §2.2.

## Tax Rate

Effective for taxable periods beginning after December 31, 2002, tax tables are used to determine tax liability using rates as follows:

Married couple filing joint return or qualifying widow:

2% on the first \$25,000

4% on the next \$25,000

6% on the taxable income above \$50,000

Single, Head of Household, or married filing separately:

2% on the first \$12,500

4% on the next \$12,500

6% on the taxable income above \$25,000

## Type of Tax Exemptions

Individual income tax exemptions are in the form of exemptions/exclusions, deductions, and credits. Exemptions/exclusions generally mean a specific item of income that is not included in taxable income. Deductions are generally defined as a reduction in net income to arrive at taxable income. Credits are generally defined as a reduction to the amount of tax due. All exemptions related to individual income tax are contained in this report.

The federal income tax deduction, although a statutory deduction, is also required by the state constitution. Repeal of this deduction requires a vote of the people. For this reason, this deduction has been separated from the other exemptions and appears at the end of this section.

## 23. Special Allowable Credits

A credit is allowed for ten percent of the amount of certain federal income tax credits. Beginning in 1975, the use of federal tax as an entry into state tax tables gave taxpayers benefit of the following credits:

- credit for contributions to candidates for public office
- credit for the elderly
- investment credit
- foreign tax credit
- work incentive credit
- jobs credit
- residential energy credit

In 1980, the method was changed to use federal adjusted gross income to calculate the amount of tax due. Because the change eliminated federal tax credits, this provision was enacted. Beginning in 1986, the credit was limited to \$25. The purpose of this credit is to allow some of the federal credits to also be applied against the state tax liability.

## Introduction

---

Louisiana became the second state to adopt a death duty in 1828 when Act 95 was enacted imposing an inheritance tax. Acts 1921, No. 127, authorized by the 1921 Louisiana Constitution (now Article 7, Section 1, of the 1974 Constitution) provides for graduated, classified or progressive taxes on inheritances, legacies, and gifts made in contemplation of death subject to certain limits and exemptions. Exemptions are provided for under R.S. 47:2402 and exclusions are found under R.S. 47:2404(C).

The Department of Revenue assumed responsibility for the administration and collection of the tax on January 1, 1974. Prior to that time, inheritance taxes were administered and collected locally. In each parish, except Orleans, the Sheriff was designated as the ex-officio inheritance tax collector for the State and an attorney was appointed to assist him. In Orleans Parish, the Clerk of Court was the inheritance tax collector.

Acts 1982, No. 874 provided for an annual increase in the value of the inheritance, legacy, donation, or gift made in contemplation of death that would be exempt from taxation when made to direct descendants by blood or affinity, ascendants, or surviving spouse. By 1987, the value to be excluded from taxation for direct descendants by blood or affinity, ascendants or surviving spouse was \$25,000. Act 874 also provided that occurring during calendar year 1992 and thereafter, the total amount or value of the inheritance, legacy, donation or gift in contemplation of death to a surviving spouse was exempt from taxation.

Acts 1997, No. 818 provided for the phase out of the inheritance tax over seven years.

Acts 2007, No. 371 provided that no inheritance tax shall apply to deaths occurring after June 30, 2004. Act 371 further provided that all persons who paid inheritance taxes based upon a death which occurred after June 30, 2004 may claim a refund of those taxes between August 1, 2008 and December 31, 2009.

## Tax Base

The tax base for Louisiana inheritance tax consists of all property of every nature and kind included or embraced in every inheritance, legacy, or donation or gift made in contemplation of death. With regard to residents, the tax base includes all immovable property located within Louisiana and all movable property, tangible or intangible, wherever situated. With regard to nonresidents, the tax base includes immovable property located within Louisiana and only tangible movable property domiciled in Louisiana.

## Tax Rates

The tax rates are graduated and progressive based upon the relationship of heirs and legatees to the decedent. The classifications of heirs and legatees and the respective tax rates are as follows:

### Classification of Heirs/Legatees

- Direct descendants by blood or affinity, ascendants, or surviving spouse—2 percent of the actual value of the first \$20,000 taxable, plus 3 percent of the actual value in excess of \$20,000
- Collaterals (including brothers or sisters by affinity and their descendants)—5 percent of the actual value on the first \$20,000 taxable, plus 7 percent of the actual value in excess of \$20,000
- Strangers or nonrelated persons—5 percent of the actual value of the first \$5,000 taxable, plus 10 percent of the actual value in excess of \$5,000

# Inheritance Tax

Effective July 1, 1998, Acts 1997, No. 818, provided for the tax rates to be reduced as follows:

1. for deaths occurring after June 30, 1998, and before July 1, 2001, the tax rates are reduced by 18 percent;
2. for deaths occurring after June 30, 2001, and before July 1, 2002, the tax rates are reduced by 40 percent;
3. for deaths occurring after June 30, 2002, and before July 1, 2003, the tax rates are reduced by 60 percent;
4. for deaths occurring after June 30, 2003, the tax rates are reduced by 80 percent; and,
5. for deaths occurring after June 30, 2004, no tax shall be levied when a judgment of possession is rendered or when a succession is judicially opened no later than the last day of the ninth month following the death of a decedent.

## Types of Tax Exemptions

The Louisiana inheritance tax law provides for tax exemptions under R.S. 47:2402 and exclusions under R.S. 47:2404(C). Exemptions are those amounts or values of an inheritance, legacy, donation, or gift made in contemplation of death that would be included in the tax base, but have been specifically exempted from the tax. Exclusions are items of property that have been excluded from the tax base.

## Significant Changes Fiscal Year 2006-2007

Acts 2007, No. 371 provided that no inheritance tax shall apply to deaths occurring after June 30, 2004. Act 371 further provided that all persons who paid inheritance tax based on deaths occurring after June 30, 2004 may claim a refund of the taxes paid beginning August 1, 2008 through December 31, 2009.

## Introduction

---

The alcoholic beverage tax law encompasses taxation on two categories of alcoholic beverages: (a) beverages of low-alcoholic content that are defined as alcoholic beverages containing not more than six percent alcohol by volume, and (b) beverages of high-alcoholic content that are defined as alcoholic beverages containing more than six percent alcohol by volume. Act 2 of the Extraordinary Session of 1933 first imposed an alcoholic beverage tax of \$1 per 31-gallon barrel on beer, porter, ale, fruit juices and wine. Act 15 of the 1934 Regular Session imposed a tax on liquor at 50¢ per wine gallon; sparkling wines at 50¢ per wine gallon; still wines not more than 14 percent by volume at 5¢ per wine gallon; still wines between 14 percent and 24 percent by volume at 10¢ per wine gallon; still wines over 24% by volume at 50¢ per wine gallon; and beer at \$1.50 per 31-gallon barrel. Tax stamps were used to indicate that the appropriate taxes had been paid. A discount of five percent of the face value of the stamps purchased in lots of \$100 or more was allowed to dealers.

The tax rates of beverages of alcoholic content have changed numerous times since 1934 as shown:

### Beer:

1934	\$1.50 per 31-gallon barrel
1948	\$10.00 per 31-gallon barrel

### Liquor:

1934	\$.50 per wine gallon
1935	\$.60 per wine gallon
1938	\$1.00 per wine gallon
1940	\$1.50 per wine gallon
1956	\$1.68 per wine gallon
1970	\$2.50 per wine gallon
1978	\$.66 per liter

### Sparkling Wines and Still Wines over 24% by volume:

1934	\$.50 per wine gallon
1935	\$.60 per wine gallon
1938	\$1.00 per wine gallon
1940	\$1.50 per wine gallon
1956	\$1.58 per wine gallon
1978	\$.42 per liter

### Still Wines not over 14% by volume

1934	\$.05 per wine gallon
1940	\$.15 per wine gallon
1942	\$.10 per wine gallon
1956	\$.11 per wine gallon
1978	\$.03 per liter

### Still Wines between 14% and 24% by volume

1934	\$.10 per wine gallon
1940	\$.30 per wine gallon
1942	\$.20 per wine gallon
1956	\$.21 per wine gallon
1978	\$.06 per liter

The provisions related to the use of tax stamps for alcoholic beverages and the purchase discount were repealed in 1964 and were replaced by a six percent discount for timely filing and remitting the taxes on beverages of high alcohol content. This discount was reduced to three and one-third percent in 1972 and a two percent discount was enacted for beverages of low alcohol content. Acts 1978, No. 441 changed the measurement of liquor and wines from gallons to liters for tax purposes. The rates effectively remained unchanged as the per-gallon rates convert to the per-liter rates.

Act 736 of the 1990 Regular Legislative Session enacted the Louisiana Native Wine Law. Rates for the native wines were set the same as rates for other wines.

The alcoholic beverages taxes are collected from the first handlers in Louisiana, usually bonded wholesale dealers. The bond required of manufacturers or wholesalers of alcoholic beverages is a minimum of \$10,000 for each type of permit held. The bond for manufacturers or wholesalers of native wines is \$5,000.

During the 1998 Regular Legislative Session, Act 71 established provisions by which sparkling and still wines could be sold and shipped directly to consumers in Louisiana by a manufacturer or retailer of such beverage domiciled outside of Louisiana. Included in the statutory requirements were the stipulations that in order for the wine to be shipped into Louisiana, the applicable taxes must be paid in full, the consumer to whom the wine is being shipped must be 21 years of age or older, and that the wine was purchased for the consumer's personal consumption.

Act 808 of the 2006 Regular Legislative Session repealed the Native Wine Law, defined and established

# Liquors-Alcoholic Beverage Tax

permit procedures for wine producers. Furthermore, the law made provision that wine producers can, under certain conditions, ship product directly to consumers.

## Types of Tax Exemptions

For alcoholic beverage tax purposes, tax exemptions are exemptions, refund/credits, and discounts. Exemptions are items that were included in the tax base, but have been specifically exempted. Refund/credits are items that taxes were paid on initially, but the taxpayer has a right to request a refund or a credit. Discounts are a proportionate deduction from the gross amount reported. The tax exemptions for beer have been separated from those for liquor and wine.

There are several statutory tax exemptions that are also prohibited from taxation by federal laws. Because of these additional prohibitions, repeal of the exemption alone would not yield the fiscal effect indicated. For this reason, these exemptions have been separately grouped at the end of the section.

# Natural Resources - Severance Tax

## Introduction

A severance tax is levied upon all natural resources severed from the soil or water, including all forms of timber, including pulp woods, and turpentine and other forest products; minerals such as oil, gas, natural gasoline, distillate, condensate, casinghead gasoline, sulphur, salt, coal, lignite, and ores; also marble, stone, gravel, sand, shells, and other natural deposits; and the salt content in brine.

Oil and gas collections account for almost 98 percent of all severance tax collections. Because of the significant revenues generated and the fact that only one minor exemption affects the other natural resources, the focus of this section is centered on the oil and gas taxes.

The first tax, based on the severance of oil and gas, was imposed in 1910. This tax was levied as an occupational license tax at a rate of 1/5¢ per 10,000 cubic feet or 10 mcf for gas, and 2/5¢ per barrel of oil.

Act 140 of 1922 carried into effect a 1921 constitutional authority for a severance tax. There have been many changes in the tax rates since 1910, including fluctuations from a volumetric to a percentage-of-value based tax. The changes are listed below in chronological order.

1910	Oil 2/5¢ per barrel; gas 1/5¢ per 10 MCF
1912	Oil and gas; 0.5% of gross value less royalty interest
1920	Oil and gas; 2% of gross value
1922	Oil and gas; 3% of gross market value
1928	Oil 4-11¢ per barrel depending on gravity; gas 1/5¢ per MCF
1936	Gas 3/10¢ per MCF
1940	Oil 6-11¢ per barrel depending on gravity; condensate 11¢ per barrel
1948	Oil 18-26¢ per barrel depending on gravity; condensate 20¢ per barrel
1958	Gas 2.3¢ per MCF
1972	Gas 3.3¢ per MCF
1974	Oil and condensate 12.5% of value; gas 7¢ per MCF
7/90	Gas 10¢ per MCF, indexed annually
7/91	Gas 9¢ per MCF
7/92	Gas 7¢ per MCF
7/93	Gas 7.5¢ per MCF

7/94	Gas 8.7¢ per MCF
7/95	Gas 7¢ per MCF
7/96	Gas 7.7¢ per MCF
7/97	Gas 10.1¢ per MCF
7/98	Gas 9.3¢ per MCF
7/99	Gas 7.8¢ per MCF
7/00	Gas 9.7¢ per MCF
7/01	Gas 19.9¢ per MCF
7/02	Gas 12.2¢ per MCF
7/03	Gas 17.1¢ per MCF
7/04	Gas 20.8¢ per MCF
7/05	Gas 25.2¢ per MCF
7/06	Gas 37.3¢ per MCF
7/07	Gas 26.9¢ per MCF

## Tax Base

The tax is imposed upon severance of the oil and gas from the soil or water and is paid by the natural resource owners. The state of Louisiana has over 30,000 producing oil and gas wells.

## Tax Rate

The capable tax rate for oil and condensate is 12.5 percent of value and accounts for over 98 percent of the oil and condensate tax collections. There is also an incapable rate and a stripper rate for low-producing oil wells. The capable rate for gas, presently 37.3¢ per MCF, is responsible for over 99 percent of total gas tax collections. There are also reduced tax rates for low-pressure oil-well gas and incapable gas-well gas. The current severance tax rates are:

Type	Rate
<b>Oil severance tax</b>	
Capable rate.....	12.5% of value
R.S. 47:633(7)(a)

**Types of Tax Exemptions**

Severance tax exemptions for oil, gas, and minerals are in the form of exclusions, exemptions, special rates, deductions, and suspensions. Exclusions are by statute and refer to specific categories of natural gas upon which the tax shall not accrue. Exemptions and suspensions are also statutorily mandated and exempt or suspend the tax on oil or gas severed from wells that meet certain criteria. Special rates reduce the tax on natural resources severed from wells that qualify under specified criteria. Deductions are defined as a credit against or a reduction to the taxable base.

**Significant Changes  
Fiscal Year 2006-2007**

The gas severance tax rate decreased from 37.3¢ to 26.9¢ per MCF on July 1, 2007, as a result of Acts 1990, No. 387, which set in place an indexing mechanism to annually adjust the gas severance tax rate.

**Natural gas exclusions**

**1. Injection**

An exclusion is allowed for the injection of gas into producing reservoirs. The gas injected maintains reservoir pressure and enhances the recovery of hydrocarbons. This gas will eventually be reproduced and sold, and at that time the tax will be paid. This is really more of a deferred payment than an exclusion. The purpose of this exclusion is to promote secondary recovery and repressurization programs.

## Introduction

---

A tax on gasoline and motor fuels was first levied in the 1921 Louisiana Constitution at the rate of 1¢ per gallon. Special fuels were first taxed at the rate of 7¢ per gallon under a Use Fuel Tax as levied by Act 244 of 1940. This act also required fuel permits. Various amendments through the years set the rates as follows:

- 1921 Gasoline tax first levied at 1¢ per gallon
- 1924 Gasoline at 2¢ per gallon
- 1928 Gasoline at 4¢ per gallon
- 1930 Gasoline at 5¢ per gallon
- 1936 Gasoline at 7¢ per gallon
- 1940 Special fuels tax first levied at 7¢ per gallon
- 1948 Gasoline and special fuels at 9¢ per gallon
- 1952 Gasoline and special fuels at 7¢ per gallon
- 1968 Gasoline and special fuels at 8¢ per gallon
- 1984 Gasoline and special fuels at 16¢ per gallon
- 1990 Gasoline and special fuels at 20¢ per gallon

Act 16 of the First Extraordinary Session of 1989 increased the total tax on gasoline, motor fuels, and special fuels to the current 20¢ per gallon, not by increasing the 16¢ per gallon rate imposed by R.S. 47:711 and R.S. 47:802, but by levying an additional 4¢ under a new part titled Transportation Infrastructure Model for Economic Development (TIMED). The money generated by this levy, which was effective January 1, 1990, was specifically dedicated. By the same legislation, the Transportation Trust Fund was created wherein the 16¢ per gallon tax collections would eventually be deposited.

## Gasoline and Diesel Fuels Tax

The gasoline tax was collected from the dealer who first handles, sells, distributes, uses, or consumes the gasoline and motor fuel in Louisiana. However, Acts 2005, No. 252 enacted R.S. 47:818.1 et seq. to move the point of collection for tax on motor fuels to the terminal rack. Clear diesel fuel, as newly defined, will be subject to tax when the product leaves the terminal via the rack so that subsequent sales of the product should be of taxed fuel and any clear diesel ultimately used for a nontaxable purpose could be eligible for the refund of the fuel tax paid.

The act also changed the discounts allowed to dealers and marketers. Previously a discount was allowed to gasoline dealers for three percent of the first 1¢ of tax; gasoline jobbers were allowed three percent of the first 4¢ of tax; and special fuel suppliers were allowed three percent of net taxable gallons. Under the act, effective July 1, 2006, suppliers (refiners) are allowed to keep 1.5 percent of the tax if they timely file and remit the taxes and pass on one percent of the tax to the distributors (marketers).

## Special Fuels Tax

Special fuels are defined as any gas or liquid, other than gasoline or diesel fuel, used or suitable for use as motor fuel in an internal combustion engine or motor to propel any form of vehicle, machine, or mechanical contrivance. Special fuels include compressed natural gas, liquefied natural gas, and liquefied petroleum gas. The tax on special fuels was paid by any person who operates a motor vehicle upon the highways that uses or is capable of using LPG or CNG. The tax is paid on the annual return and is evidenced by a decal that is issued to the operator for each vehicle.

Owners or operators of motor vehicles that use liquefied natural gas, liquefied petroleum gas, or compressed natural gas pay an annual flat rate or tax based on usage depending on weight of the vehicle. Act 2005, No. 252 does not change the manner in which this tax will be reported or collected.

## Fee for Inspection

To defray the expenses connected with the inspection, testing, and analyzing of petroleum products in the state, an inspection fee of  $\frac{4}{32}$  of one cent per gallon is collected on all petroleum products distributed, sold, or offered for sale or use or consumption in the state or used or consumed in the state. The fee, to be paid by the first person handling the fuel, must be paid before delivery to agents, dealers, or consumers in the state. The fee is not collected on liquefied petroleum gas, natural gas, or bulk sale or transfers and exports out of the state are not subject to the fee. In addition, no fee is due on fuels that are eligible for tax refunds under the provisions of R.S. 47:818.15(A)(5) or that are sold for use in or distributed to seagoing vessels as defined in R.S. 3:4602.

## Types of Tax Exemptions

Petroleum products tax exemptions are in the form of exemptions, refunds, and discounts. Exemptions are items that were included in the tax base, but have been specifically exempted statutorily. Refunds are a restitution of taxes paid. Discounts are a proportionate deduction from the amounts reported.

There are two statutory tax exemptions that are also prohibited from taxation by federal laws. Because of these additional prohibitions, repeal of the exemption alone would not yield the fiscal effect indicated. For this reason, these exemptions have been separately grouped at the end of the section.

## Significant Changes Fiscal Year 2006-2007

There were no significant changes to the Petroleum Products taxes during the past year.

## Inspection and Supervision Fee

---

### Introduction

The inspection and supervision fee was first imposed by Act 108 passed during the Extraordinary Session of 1921. This act established that each common carrier and public utility doing business in Louisiana and subject to the control and jurisdiction of the Public Service Commission would pay an annual fee for the inspection, control, and supervision of the business, service, and rates of such common carrier and public utility. The fee was set on a graduated scale, with a minimum annual fee established of \$10 not to exceed a maximum of \$500, to be due at the end of December. Changes to the fee and rate schedules occurred in 1928, 1935, 1962, 1970, and again in 1972 when a minimum annual fee of \$35 was established and the maximum amount eliminated.

The year 1985 brought forth two pieces of legislation. Act 182 changed the due date from December 31 to April 1; while Act 561 implemented a supplemental fee of 20 percent of the inspection and supervision fee payment on each gas, electric, and telephone public utility. Act 700 of 1986 changed the reporting period from annually to quarterly, adjusted the rates, and established the minimum amount to be paid at not less than \$12.50 quarterly, \$50 annually.

As a result of Section 601 of the Federal Aviation Administration Act of 1994, Act 301 of 1995 was enacted removing certain motor carriers from the jurisdiction of the Louisiana Public Service Commission thus eliminating these carriers from the imposition of the Inspection and Supervision Fee.

### Significant Changes Fiscal Year 2006-2007

Acts 2007, No. 234 amended R.S. 45:1177(A)(2) and (3) to increase the rates for calculation of the fee and to increase the minimum quarterly fee to \$20 with a minimum \$80 annual fee. Included in the Act was the repeal the supplemental fee at R.S. 45:1177(D) and the provisions of R.S. 45:1177(E) providing the exclusion for commercial mobile service. The Act also amended R.S. 45:1180(A) and 1181(A) and repealed R.S. 45:1177.1 and 1178. The Act was effective August 15, 2007, but because the fees were determined to be an annual fee, the changes were applied to the fees for the calendar year 2007 as calculated in the report for the fourth quarter.

## Transportation and Communication Utilities Tax

### Introduction

A tax on transportation and communication utilities was first imposed by Act 13 of the 1934 Regular Legislative Session. The tax was levied on every person owning or operating any public utility in this state. Public utilities has been defined to include railroads and railways, sleeping cars, motor bus lines, motor freight lines, express companies, boat or packet lines, and pipe lines. The basic law has remained relatively unchanged over the years with the majority of changes occurring to the definitions of the various utilities and what constitutes gross receipts for the respective utilities.

Acts 1991, No. 388 repealed the transportation and communication tax as it applied to telephone companies and at the same time the telephone companies' services became subject to sales and use tax.

## Introduction

Louisiana sales tax was first imposed in 1936. The original sales tax was enacted as a two percent luxury sales tax. It was replaced by a one percent general sales tax that was in effect between 1938 and 1940. In 1942, a one percent war emergency tax was enacted and set to run for a two-year period. The first permanent sales tax was enacted in 1944 at a rate of one percent (R.S. 47:302); increased to two percent in 1948 (R.S. 47:302); increased to three percent in 1970 (R.S. 47:321); and increased to a four percent rate in 1984 (R.S. 47:331).

The general sales tax rate was four percent until June 30, 1988. In 1988, the legislature created the Louisiana Recovery District and authorized the District to issue bonds to be secured through the imposition of a sales tax. The one percent general sales tax imposed under R.S. 47:321 was repealed and was replaced by the one percent Recovery District tax. Due to bonding requirements, the taxes levied by the Recovery District are not affected by tax law changes subsequent to 1988. This combination of a three percent general sales tax, along with a one percent Recovery District tax remained in effect from July 1, 1988 to September 30, 1990.

In 1990, the legislature created the Louisiana Tourism Promotion District and granted it the authority to levy a tax. On October 1, 1990, the Tourism Promotion District levied a .03 percent sales tax, and on the same date the general sales tax rate imposed under R.S. 47:331 was reduced to .97 percent totaling the same overall tax rate of one percent. The tax base is the same for the Tourism Promotion District and general sales tax. On September 30, 1996, the bonds of the Recovery District were retired and the Recovery District ceased to exist. The levy of the Recovery District was replaced with a one percent general sales tax levy under R.S. 47:321.

For the purposes of this report, the term general sales tax is used to reference the four percent tax imposed by both the state and the Tourism Promotion District.

Exclusions and exemptions from the sales tax have existed since the first tax levy and new exclusions and exemptions have been enacted over the years. The exemptions were effective against the total sales tax base until 1986. During the 1986 Regular Legislative Session, House Concurrent Resolution 55 was enacted, which suspended the sales tax exemptions imposed under R.S. 47:331 for the period of July 1, 1986

through June 30, 1987. As a result of the suspension, traditionally exempt items were subject to a one percent sales tax. The legislature continued the one percent suspension until July 31, 1989. Effective August 1, 1989, the suspension rate was changed to three percent through December 31, 1989; two percent from January 1, 1990 through July 9, 1990; and three percent from July 10, 1990 through June 30, 1997. From July 1, 1993 to September 30, 1996, exemptions from the one percent sales tax levied by the Louisiana Recovery District were also suspended, resulting in a four percent suspension rate.

In order to extend tax relief, the Louisiana Legislature began enacting exclusions from the tax under the definitions in R.S. 47:301, rather than the exemptions under R.S. 47:305. Some of the new exclusions replaced existing exemptions that were taxable under the suspension of exemptions. This action resulted in two statutes affecting the same subject. In 1998, duplicative exemptions were repealed leaving only the exclusion as the statutory authority. The bonds of the Recovery District were retired as of September 30, 1996, and the District ceased to exist. The levy of the District was replaced with a one percent general sales tax levy and the four percent suspension continued until June 30, 1997.

From July 1, 1997 to June 30, 2000, the suspension rate is three percent. From July 1, 2000 to June 30, 2009 the suspension rate is four percent, except for sales of non-residential electricity, water utility service, natural gas, and steam, which is subject to a suspended tax rate of 3.8 percent through December 31, 2005. For the period January 1, 2006, to June 30, 2009 sales for nonresidential purposes of natural gas for energy and electric power will be subject to a suspended rate of 3.3 percent. Sales of steam and water for nonresidential use will continue to be taxed at the suspended rate of 3.8 percent.

The tax base consists of retail sales of tangible personal property, rental of movable property, and selected services. The tax base also includes use tax due on the cost of tangible personal property imported into this state or purchased within this state without the proper payment of sales tax.

## Types of Tax Exemptions

Louisiana sales tax exemptions are in the form of exclusions, exemptions, alternate reporting methods, credits, and refunds. Exclusions are items that have been excluded from the tax base by definition. Exemptions are items that were included in the tax base, but have been specifically exempted. Alternate reporting methods allow taxpayers to report and remit taxes in a manner different from the normally required procedure. Statutorily prescribed methods of taxation are items that have statutory methods to calculate the tax. Credits are situations when the taxpayer can deduct the credit amount from the tax due and pay only the net tax due. Refunds are the result of taxes paid initially, but for which the taxpayer may be reimbursed. All tax exemptions that are the result of Louisiana tax statutes are included in this report.

There are several statutory tax exemptions that are also prohibited from taxation by the state constitution, federal laws, or existing reciprocal agreements. Because of these additional prohibitions, repeal of the exemption alone would not yield the fiscal effect indicated. For this reason, these exemptions have been separately grouped at the end of the section.

## Fiscal Effect

The fiscal effect shown in this budget reflects all current statutory language and is not broken down by the various levies. It reflects the suspension of most exemptions at the rate of four percent.

Legislation to continue the suspension of most of the state sales tax exemptions through June 30, 2009, was enacted during the 2004 1st Extraordinary Session by Act 4.

## Significant Changes Fiscal Year 2006-2007

Acts 2007, No. 1 enacts R.S. 47:301(16)(m) to provide an exclusion from sales and use taxes for machinery and equipment used by a motor vehicle manufacturer with a North American Industry Classification System (NAICS) code beginning with 3361 and authorizes political subdivisions to also provide the exclusion. The Act also provides that tooling used in a compression mold process would be considered manufacturing machinery and equipment for the purpose of the sales tax exclusion. Effective May 31, 2007.

Acts 2007, No. 173 enacts R.S. 47:301(14)(g)(iii) to provide a sales and use tax exclusion for repairing, renovating, or converting of a drilling rig used exclusively for the exploration or development of minerals outside the territorial limits of the state in the Outer Continental Shelf waters. This Act also amends R.S. 47:301(14)(g)(i) to allow certain parishes to exempt repair transactions when the repaired property is delivered to the customer in another state and enacts R.S. 47:337.10(L) to allow certain parishes to participate in annual sales tax holidays. Effective June 27, 2007.

Acts 2007, No. 209 amends R.S. 47:305.50 to exempt certain trucks and trailers from sales and use tax. It also authorizes the Secretary to promulgate rules and regulations to provide for the administration of audits, audit procedures, and establish the documents a taxpayer must retain to substantiate the tax exemption. Effective June 29, 2007.

Acts 2007, No. 429 enacts R.S. 47:305.58 to establish an annual sales tax holiday during the last weekend of May each year beginning at 12:01 a.m. on Saturday and ending at 11:59 p.m. on Sunday. The holiday provides an exemption from state sales and use tax on the first \$1,500 of the purchase price of certain hurricane-preparedness items or supplies. This Act also amends R.S. 47:301(3)(i)(ii)(bb)(I) to include certain recyclable material merchant wholesalers within the definition of "manufacturer" and therefore eligible for the phased-in exclusion for manufacturing machinery and equipment. Effective June 30, 2007.

This exclusion allows any payments made directly between the manufacturer and a third-party dealer (not the manufacturer's customer) for the manufacturer's product for the specific purpose of reducing the sales price and which actually reduces the price as stated to the consumer for the tangible personal property to be free of sales tax. ## 8. Purchases of Manufacturing Machinery and Equipment

The exclusions, phased in over seven years, allow manufacturing machinery and equipment to be purchased free from the state sales, use, lease, and rental tax by eligible manufacturers. The term “manufacturer” is defined as a person whose principal activity is manufacturing, and who is assigned by the Louisiana Department of Labor a North American Industry Classification code within the agricultural, forestry, fishing, and hunting Sector 11 or manufacturing Sectors 31-33, as they existed in 2002. Acts 2005, No. 471 expanded the definition of manufacturer to include those who would be assigned a NAICS code within Sector 11 or 31-33 but are not required to register with the Department of Labor for unemployment insurance and therefore do not receive such assignment. This same act also enacted a provision that allows machinery and equipment used by an industrial manufacturing plant to generate electric power for self consumption or cogeneration to be included in the definition of “machinery and equipment” for purposes of the sales tax exclusions for manufacturing and agricultural machinery and equipment. To qualify for the exclusion, the machinery and equipment must be used by the manufacturer in a plant facility and be used predominantly and directly in the actual manufacturing process. Acts 2007, No. 429 further expanded the definition of manufacturer to include certain recyclable material merchant wholesalers.

Effective July 1, 2005, 19 percent of the price of eligible manufacturing machinery and equipment will be excluded from the state sales tax, increasing to 35 percent effective July 1, 2006 then 54 percent effective July 1, 2007.

## 67. Certain Digital Television and Digital Radio Conversion Equipment

This exclusion allows individual taxpayers who hold a Federal Communications Commission license issued pursuant to 47 CFR Part 73, to purchase digital television and digital radio conversion equipment free from the general sales and use tax. Acts 2002, No. 61 specifically defines the items that qualify for the exclusion and provides that the exclusion only applies to the first purchase of each enumerated item. The Act also allows for a retroactive application of the exclusion on purchases of qualifying equipment purchased after January 1, 1999.

When enacted, the exclusion for purchases made by taxpayers holding Federal Communications Commission radio broadcast licenses issued pursuant to 47 CFR Part 73 did not apply until such time as the Federal Communications Commission mandated a radio conversion to digital broadcasting. Acts 2005, No. 243 repealed the restriction thus enabling those taxpayers to claim the exclusion on the first purchase of qualifying items.

This refund provision gives financial assistance to persons who have suffered uninsured losses in natural disasters. The sales tax paid on destroyed property can be refunded upon the filing of a proper claim. The refund is based upon taxes paid by the owner on the destroyed property. The purpose of this refund is to provide financial relief to persons who have suffered uninsured losses in natural disasters.

Gasohol, not subject to road use excise tax, is exempt from taxation under R.S.47:305.28 for gasohol produced, fermented, and distilled in Louisiana. ## 170. Purchases Made with Food Stamps and WIC Vouchers

This exemption allows tax-free purchases of eligible food items if purchased with USDA food stamps or Women, Infants, and Children's (WIC) vouchers. The federal government issues food stamps and WIC vouchers to qualified participants to purchase eligible food items. States are not allowed to tax these purchases as a requirement for receiving federal funding for the food stamp and WIC programs. Repeal of this exemption would cost the state federal food stamp funding. The purpose of this exemption is to comply with the federal government's restrictions.

## 171. Credit for Sales and Use Taxes Paid to other States on Property Imported into Louisiana

This credit allows a person or company to reduce any use tax due by the equivalent sales/use tax lawfully paid to another qualified state. In order to qualify, the other state must allow a similar credit for Louisiana taxes and the tax charged must be similar in nature. The state of Louisiana has entered into agreements with other states to allow similar credits for Louisiana residents. ## Introduction

---

The Department of Economic Development, Business Incentives Division, administers various tax exemptions and incentive programs for the benefit of qualifying businesses. The State Board of Commerce and Industry is responsible for reviewing and approving or disapproving applications for many of the tax incentive programs administered by the Department of Economic Development.

Depending on the legislative intent, businesses must meet specific criteria to be eligible for the various tax exemption and incentives and once approved, must continue to comply with the program guidelines to maintain eligibility. The purpose of these tax exemption and incentive contracts is to encourage specific economic development.

## Types of Tax Exemptions

Tax exemptions can be in the form of sales and use tax rebates and exemptions and credits for income taxes, corporation franchise tax, and other taxes imposed by the state.

## Significant Changes Fiscal Year 2006-2007

Acts 2007, No. 299 amends R.S. 25:1226.4(C)(1) and (2) and 1226.6(A) to increase the tax credit related to the operations of a cottage industry within the Atchafalaya Trace Heritage Area Development Zone, to increase the tax credit related to hiring new employees during the taxable year, and to extend the credit through January 1, 2012. This Act also enacts R.S. 47:6026 to authorize a credit for heritage based cottage industries located or to be located in the Cane River Heritage Area and to authorize a tax credit related to hiring new employees during the taxable year for which the credit is claimed. In order to qualify as a new hire, the employee must have been a resident of the Cane River Heritage Area for at least 30 days prior to employment. Unused credits may be carried forward for 10 years from the date the credit was originally awarded. The Cane River Heritage Area credits expire January 1, 2012.

Acts 2007, No. 356 enacts R.S. 47:6027 to create and establish the Mentor-Protégé Tax Credit Program. Qualifying entities that fulfill the terms of a Mentor-Protégé Agreement may earn a refundable tax credit on any Louisiana income or corporation franchise tax liability. Qualifying mentors must possess a favorable financial health, including profitability for

at least two years; demonstrate its capability to provide managerial or technical skills transfer or capacity building; and meet the goals and objectives of the Mentor-Protégé Agreement. Qualifying protégés must be certified active in the Small And Emerging Business Development Program or registered and approved in the Small Entrepreneurship Program by the Department of Economic Development and be willing to participate with a mentoring firm. The Mentor-Protégé Tax Credit Program expires December 31, 2011. Effective for all income tax years beginning on or after January 1, 2007, and franchise tax years beginning on or after January 1, 2008.

Acts 2007, No. 374 enacts R.S. 33:130.731 et seq., the Louisiana Community Economic Development Act, and R.S. 47:6031, which authorizes a tax credit against income and corporation franchise tax for 25 percent of the money donated, contributed, or represented by a sale below cost by the taxpayer to a certified community development corporation or a certified community development financial institution. The credit must be approved by the Department of Economic Development and is limited to \$500,000 per year per individual or \$1 million per year per business and \$1 million total per individual and \$2 million total per business. The credit may be carried forward for five years. Effective from July 10, 2007 to August 15, 2010.

Acts 2007, No. 379 amends R.S. 47:6016 relative to the Louisiana New Markets Tax Credit to include the following: a \$50 million cap on the entire credit; an increase in the applicable percentage, which allows for more of the credit to be taken up front; a reduction in the number of credit allowance dates and a \$15 million cap on the amount that can be issued by a single business. The Louisiana New Markets Tax Credit was designed to piggyback the Federal New Markets Tax credit, which encourages investors to invest in poor or under-developed regions of the country. If an allocation is received from the federal government, an investor is entitled to claim the state new markets tax credits as well if funds were invested in a Louisiana low-income business. Effective July 1, 2007.

Act 400 (HB 372) amends R.S. 51:1787(A), (B), (I), and (J), 2456(B), and 2461(B) and repeals R.S. 51:1787(C), (D), and (H), relative to the Enterprise Zone and Louisiana Quality Jobs Programs, to allow the taxpayer an option between the sales and use tax rebate and a refundable investment income tax credit equal to 1.5 percent of qualified expenditures.

Qualified expenditures are defined as amounts classified as capital expenditures for federal income tax purposes plus exclusions from capitalization provided for in Internal Revenue Code Section 263(a)(1)(A) through (L), minus the capitalized cost of land, capitalized leases of land, capitalized interest, capitalized costs of manufacturing machinery and equipment to the extent the capitalized manufacturing machinery and equipment costs are excluded from sales and use tax pursuant to R.S. 47:301(3), and the capitalized cost for the purchase of an existing building. Effective July 10, 2007.

Acts 2007, No. 401 enacts R.S.51:2351–2356 to create the Technology and Commercialization Credit and Jobs Program to deter university professors from taking their research and leaving the state. Individuals and businesses that invest in the commercialization of Louisiana technology in Louisiana and/or create new direct jobs earn a refundable tax credit against their Louisiana income tax and corporation franchise tax liability. The credits are earned and granted for a period of not less than five tax years. At least five new direct jobs paying at least \$50,000 a year must be created. This credit is administered by the Department of Economic Development. Effective July 10, 2007.

Acts 2007, No. 482 enacts R.S. 47:6034 to create a musical and theatrical production income tax credit, which grants a refundable income tax credit to musical or theatrical productions or musical or theatrical facility infrastructure projects. State-certified infrastructure projects are capped at \$60 million per year with half of that amount reserved for projects in areas other than Jefferson and Orleans parishes. The infrastructure credit expires January 1, 2014. The credits are available for expenditures for production, infrastructure, and transportation expenses, employment of Louisiana students, and employment of Louisiana residents made on or after July 19, 2007. This credit is not allowed if the Motion Picture Investment credit (R.S. 47:6007) or the Sound Recording credit (R.S. 47:6023) has been granted.

# Tobacco Tax

---

## Introduction

---

A tobacco tax was first levied in 1926, by Act 197 for the benefit of public schools. Retail dealers were taxed at the rate of 1¢ per 10¢ of the retail selling price of cigarettes, smoking and chewing tobacco, cigars, cheroots, and snuff. The tax was effective October 1, 1926, for a period of four years.

Act 4 of 1932 levied a new tax on sales of cigars, cigarettes and smoking tobacco effective September 1, 1932. The cigarette rate was based on each cigarette sold. Cigars were taxed on weight and price per 1,000 and the tax ranged from 75¢ to \$13.50 per 1,000. Smoking tobacco was taxed at 1¢ for each 5¢ of retail selling price. The tax was evidenced by tax stamps supplied by the state and applied by the tobacco dealers who were allowed a discount when purchasing stamps in quantities not less than \$100 face value.

The tax rates on cigarettes increased over the years as follows:

1932	Levied at 1/5¢ per cigarette to 4¢ per 20 pack
1942	Increased by 1/20¢ per cigarette to 5¢ per 20 pack
1948	Increased to 2/5¢ per cigarette or 8¢ per 20 pack
1970	Increased to 11/20¢ per cigarette or 11¢ per 20 pack
1984	Increased to 16/20¢ per cigarette or 16¢ per 20 pack
1990	Increased to 1¢ per cigarette or 20¢ per 20 pack
2000	Increased by 4/20¢ per cigarette to 24¢ per 20 pack (Increase effective until June 30, 2012)
2002	Increased by 12/20¢ per cigarette to 36¢ per 20 pack

The tax rates on cigars and smoking tobacco changed in 1942 and 1948, and were eventually set at the current rates in 1974 by Act 413, effective January 1, 1975. A tax on smokeless tobacco was levied effective July 1, 2000.

The discount from the face value of the tax stamp also changed from the original ten percent in 1932 to six percent in 1942; seven percent in 1944; nine percent in 1948; to the current six percent in 1972.

The tobacco tax is currently levied on tobacco products and collected from the dealer who first sells, uses, consumes, handles, or distributes the products within the state. Tax stamps indicate the payment of tax on cigarettes and can only be purchased from the Department by wholesale tobacco dealers who are required to post a bond.

## Tax Base

Cigarettes—per cigarette.

Cigars and smoking tobacco—manufacturer's invoice price.

## Tax Rate

- Cigarettes – 1.8¢ per cigarette (36¢ per standard package of 20).
- Cigars – 8 percent if manufacturer's invoice price is \$120 per 1,000 or less; 20 percent if manufacturer's invoice price is more than \$120 per 1,000.
- Smoking tobacco—33 percent of the manufacturer's invoice price.
- Smokeless tobacco – 20 percent of the manufacturer's invoice price.

## Types of Tax Exemptions

Tobacco tax exemptions are in the form of discounts, exemptions, and refunds. Discounts are a proportionate deduction from the gross amount reported. Exemptions are items included in the tax base, but specifically exempted by statute. Refunds are restitution of taxes paid.

There are two statutory tax exemptions that are also prohibited from taxation by federal laws. Because of these additional prohibitions, repeal of the exemption alone would not yield the fiscal effect indicated. For this reason, these exemptions have been separately grouped at the end of the section.
