Instructions for Supplemental Worksheet for Credit for Taxes Paid to Other States for Forms IT 540 and IT 541

GENERAL INFORMATION

Pursuant to La. R.S. 47:33, if you are a resident of Louisiana, you are allowed a credit for income taxes paid to other states for income reported on your Louisiana return. The credit is allowed ONLY if the other state does not allow a nonresident a credit against the income taxes imposed by that state for taxes paid or payable to the state of residence. The credit is equal to the lesser of the amount of taxes paid to the other state or the amount determined by multiplying the taxpayer's Louisiana income tax liability by a fraction, the numerator of which is the taxpayer's Louisiana taxable income attributable to the other state to which net income taxes were paid, and the denominator of which is total Louisiana taxable income.

If there is not enough space, additional forms may be completed as needed. Attach this form and copies of the return filed with the other states to your Form IT-540, *Louisiana Resident Individual Income Tax Return* or Form IT-541, *Fiduciary Income Tax Return*.
