GENERAL INFORMATION CONCERNING LOUISIANA ADVANCE SALES TAX

Louisiana Revised Statute 47:306(B) requires dealers who sell tangible personal property to other dealers for resale to collect "advance sales tax" on those sales. The advance sales tax is imposed at the same rate as the sales tax imposed on the retail sale of the property. Retail dealers may claim a credit for the advance tax paid to suppliers on line 12 of the Louisiana Sales Tax return for the period in which they were invoiced by their suppliers. The Department of Revenue will issue a refund for any reporting period where the advance tax paid to suppliers exceeds the tax collected from customers, as reported on the sales and use tax return.

EXEMPTION FROM PAYMENT OF THE ADVANCE SALES TAX

R.S. 47:306(B) provides an exemption from the advance sales tax for certain wholesale dealers. To qualify, over 50 percent of the dealer's sales must consist of the types of property listed on Lines 8a through 8f or the types of customers listed on Lines 9a through 9i. Wholesale dealers may qualify for exemption from the advance sales tax based on the types of property sold (Line 8) or the types of customers (Line 9). However, dealers may not combine the two categories to meet the 50 percent requirement.

R.S. 47:306(B)(11) also allows certain retail dealers to be exempt from payment of the advance sales tax. To qualify for exemption from advance sales tax as a retailer, the business must have been registered with the Louisiana Department of Revenue for a sales tax account for at least one year; filed timely all sales tax returns for at least 12 consecutive months; and reported gross sales of at least \$3 million on line 1 of the business' state sales tax returns during the most recent 12 month period. Each location must qualify independently for this exemption.

NO EXEMPTION FROM COLLECTION OF TAX OR REPORTING OF SALES

This statute does not provide a general exemption from the collection of tax or an exemption from reporting requirements. If approved for this exemption, dealers must still report their sales and collect the state sales tax on all of their sales unless the property being sold is specifically exempt or the customer has provided the selling dealer with a valid Louisiana Exemption Certificate attesting that the property will be used in an exempt manner.
