MOTOR VEHICLE SALES TAX

Motor vehicle sales tax applies to both motorized and non-motorized property subject to the Vehicle Registration License Tax Law of the State of Louisiana. Motor vehicles include, but are not limited to, automobiles, trucks, motorcycles, motor homes, mobile homes, trailers (boat and utility), campers, and off-road vehicles. In addition to the 4.45 percent state sales tax, most parishes and many municipalities have a local sales tax ranging from 1.85 percent to 7 percent. The rate of tax is based upon the domicile of the purchaser, not the location of the seller. The state and local sales taxes are paid by the purchaser to the Office of Motor Vehicles, Department of Public Safety at the time the vehicles are registered or titled, along with applicable fees for registration. The documents required to register a motor vehicle are (1) a manufacturer's statement of origin or previous owner's title, (2) a notarized bill of sale or dealer's invoice containing a description of vehicle being sold and any trade-in, (3) if financed, an original or copy of properly completed UCC-1 Form (financing statement) or other security agreement, if lien is to be recorded, and (4) proof of insurance. A certificate of title in the purchaser's name will not be issued until all taxes and fees have been paid and required documents have been furnished.

Vehicles Purchased In State

Sales tax on motor vehicles purchased in this State are payable by the 40th day following the date of sale. Registration and payment of taxes and fees may be made through the retail dealer or directly to the Office of Motor Vehicles.

Vehicles Purchased Out of State

Sales tax on motor vehicles purchased outside of Louisiana for use in Louisiana are payable by the 30th day after the vehicle first enters Louisiana. A credit against the 4.45 percent state sales tax will be granted to residents who paid a similar tax on the purchase of the motor vehicle in the other state if that state allows a credit for taxes paid in Louisiana. A credit cannot be allowed for taxes paid in a foreign country.

Note: The credit is granted on a rate-to-rate basis and not dollar-to-dollar.

Vehicles Brought into Louisiana by New Residents

A use tax is due on the fair market value of a motor vehicle brought into Louisiana by a new resident who previously registered the vehicle in another state or a foreign country. This use tax is payable by the 30th day following the month the vehicle first enters Louisiana. A credit against the 4.45 percent state use tax will be granted to taxpayers who paid a similar tax on the sale or use of this vehicle in another state if that state allows new residents a credit for taxes paid in Louisiana. (See note above.) This credit cannot be allowed to new residents from a foreign country. No use tax is required of a Louisiana resident who moves out of state and later moves back to Louisiana, bringing a vehicle previously titled in his name in Louisiana.

Exemptions from Sales and Use Taxes

Military personnel are exempt from payment of use tax on motor vehicles imported into Louisiana while on active duty, providing they have proof that sales tax was previously paid on their vehicle in one of the 50 states. In addition, a photocopy of their military ID and orders, or a statement from their commanding officer, verifying they are active duty military personnel is required.

Note: Nonprofit, charitable, and religious organizations are not exempt from taxation.

Interest and Penalties on Sales and Use Tax

As provided for under Louisiana Revised Statutes 47:1601(A)(2)(a)(v), interest will be assessed on non-payments and late payments until all taxes have been paid.

A delinquent or late payment penalty will be assessed if the sales or use tax is not paid on or before the payable date of the sales or use tax at the rate of 5 percent of the tax for each 30 days, or any portion thereof, that the tax is delinquent, not to exceed a maximum of 25 percent.
