Instructions for Completing Alcoholic Beverage Tax Return

The tax on alcoholic beverages of high alcohol content is an excise tax and is collected from the wholesale dealer who first handles and distributes such beverages within the state or a manufacturing distiller that self-distributes and is responsible for remitting excise taxes on all self-distributed products. Before commencing business as a Louisiana wholesale alcoholic beverage dealer, a company must (1) file a surety bond or a Certificate of Deposit in the minimum amount of \$10,000 with the Louisiana Department of Revenue (LDR); and (2) file and obtain a permit from the Office of Alcohol and Tobacco Control (ATC). A report disclosing all movements of alcoholic beverages for a given month is required to be filed monthly with LDR.

The tax on alcoholic beverages of high alcohol content is computed on a liter basis as stated in La. R.S. 26:341, as follows:

1. Liquor at a rate of \$0.80 per liter
2. Sparkling Wines at a rate of \$0.55 per liter
3. Still Wines
 - a. of an alcoholic content of not more than 14% by volume at a rate of \$0.20 per liter
 - b. of an alcoholic content of more than 14% by volume but no more than 24% by volume at a rate of \$0.35 per liter.
 - c. of an alcoholic content of more than 24% by volume at a rate of \$0.55 per liter (report on return in the sparkling wine column)

The wholesale dealer is allowed a 2.5% discount on the gross amount of tax due for accurately reporting and timely remitting the taxes due. When a check or other instrument is given for payment of taxes and is returned unpaid, the discount is forfeited.
