

Declaration of Estimated Tax for Corporations General Information

2013

SPEC CODE – This space on the first page of the tax return is to be used only when specifically instructed by the Department of Revenue. Otherwise, leave blank.

Any corporation that can reasonably expect its income tax for the taxable year to be \$1,000 or more must make estimated tax payments.

The term “estimated tax” means the amount the taxpayer estimates to be the Louisiana income tax imposed for the current period, less the amount it estimates to be the sum of any credits allowable against the tax.

Estimated payments must be made, generally, on or before the fifteenth day of the fourth month, the sixth month, the ninth month, and the twelfth month of the taxable year. For taxable periods beginning this year, refer to the table below to determine the date the installment payments are due. The table below summarizes the due dates and amounts of installment payments where liability for declarations is caused by an event occurring within a taxable period.

Time and Amount of Installments

The due date and the amount of the installment payments shall be determined as follows:

If a corporation's estimated tax is \$1,000 or more, it meets the requirements for paying installments. If the requirement is first met:	Number of installments to make	The following percentages of the estimated tax shall be paid on or before the 15 th day of the:

Make payment to: Department of Revenue. **Do not send cash.**

If a new estimate is made after paying any installment of estimated corporation income tax, the amount of each remaining installment should be the amount of the revised estimated corporation income tax, less the total amount of any previous payments made during

the taxable year, divided by the number of remaining installments due for the taxable year.

If you had an overpayment of tax on your last year's return and elected to apply it as a credit to your estimated corporation income tax, the amount of overpayment may be applied in part or in full to any installment.

There shall be added to the tax due an amount computed at the rate of 12 percent per annum on the sum of any underpayment or nonpayment of estimated tax.
