

GENERAL INFORMATION

IMPORTANT

The Louisiana Revenue Account Number **must be used** on all tax documents and correspondence.

Please use the pre-printed return supplied by the Department. Any change of address should be noted in the address area, and the circle indicating that the address has changed should be marked. If a pre-printed return is unavailable, indicate the Louisiana Revenue Account Number, complete name, and current address on the tax return. If the address is different from that of the last return filed, mark the circle indicating that the address has changed. Returns and instructions are available at all offices listed on inside back cover and via the Department's website, www.revenue.louisiana.gov.

PLEASE COMPLETE ALL APPLICABLE LINES AND SCHEDULES OF THE RETURN.

Failure to furnish complete information will cause processing of the return to be delayed and may necessitate a manual review of the return.

Every corporation should retain, for inspection by a revenue auditor, working papers showing the balance in each account on the corporation's books used in preparing the return until the taxes to which they relate have prescribed.

WHO MUST FILE?

DOMESTIC CORPORATIONS – Corporations organized under the laws of Louisiana must file an income and franchise tax return (Form CIFT-620) each year unless exempt from both taxes.

Corporation franchise tax for domestic corporations continues to accrue, regardless of whether any assets are owned or any business operations are conducted, until a "Certificate of Dissolution" is issued by the Louisiana Secretary of State.

FOREIGN CORPORATIONS – Corporations organized under the laws of a state other than Louisiana that derive income from Louisiana sources must file an income tax return (Form CIFT-620), whether or not there is any tax liability.

A foreign corporation is subject to the franchise tax if it meets any one of the criteria listed below:

1. Qualifying to do business in Louisiana or actually doing business within this state; or,
2. Exercising or continuing the corporate charter within this state; or,
3. Owning or using any part or all of the corporate capital, plant, or other property in this state in a corporate capacity.

A corporation will be subject to the franchise tax if it meets the above criteria, even if it is not required to pay income tax under Federal Public Law 86-272.

Corporation franchise tax for foreign corporations continues to accrue as long as the corporation exercises its charter, does business, or owns or uses any part of its capital or plant in Louisiana, and in the case of a qualified corporation, until a "Certificate of Withdrawal" is issued by the Louisiana Secretary of State.

OTHER ENTITIES – Any entity taxed as a corporation for federal income tax purposes will also be taxed as a corporation for state income tax purposes.

CONSOLIDATED GROUPS – Louisiana law does not provide for filing consolidated returns. Generally, separate corporate income and franchise tax returns must be filed by all corporate entities liable for a Louisiana tax return.

Subchapter S CORPORATIONS – Louisiana law does not recognize Subchapter S corporation status, and an S corporation is required to file in

the same manner as a C corporation. However, in certain instances, all or part of the corporation income can be excluded from Louisiana tax. For information on the S corporation exclusion of net income, refer to the instructions for Line 1B.

EXEMPT CORPORATIONS – Louisiana Revised Statute 47:287.501 provides that an organization described in Internal Revenue Code Sections 401(a) or 501 shall be exempt from income taxation to the extent the organization is exempt from income taxation under federal law, unless the contrary is expressly provided. An organization claiming exemption under R.S. 47:287.501 must submit a copy of the Internal Revenue Service ruling establishing its exempt status. Refer to R.S. 47:287.501 for additional exemptions provided for banking corporations. Refer to R.S. 47:287.521, 526, 527, and 528 for information concerning the treatment of farmers' cooperatives, other cooperatives, shipowners' protection and indemnity associations, political organizations, and homeowners' associations.

Refer to R.S. 47:608 for information concerning those corporations exempt from franchise tax. Those corporations that meet the prescribed standards of organization, ownership, control, sources of income, and disposition of funds must apply for and secure a ruling of exemption from the Department.

TIME AND PLACE FOR FILING

On or before the 15th day of the fourth month (April 15 on a calendar year basis) following the close of an accounting period, an income tax return for the period closed and a franchise tax return for the succeeding period must be filed with the Secretary of Revenue, Post Office Box 91011, Baton Rouge, LA 70821-9011. If the due date falls on a weekend or holiday, the return is due the next business day and becomes delinquent the first day thereafter. Make payments to Louisiana Department of Revenue. **DO NOT SEND CASH.**

EXTENSIONS OF TIME FOR FILING

The Secretary may grant a reasonable extension of time to file the combined corporation income and franchise tax return not to exceed seven months from the due date of the tax return. Louisiana will recognize and accept the federal extension authorizing the same extended due date as the federal. A copy of the request filed with the Internal Revenue Service must be attached to the Louisiana return. If a federal extension has not been obtained or additional time is needed beyond the extended due date of the federal return, then Form CIFT-620EXT (Application for Automatic Extension of Time to File Corporation Income and Franchise Taxes Return) should be filed with the Department by the due date of the return for which the extension applies. (See page 29.)

PERIODS TO BE COVERED

The return must be filed for either a calendar year, a fiscal year (12-month accounting period ending on the last day of any month other than December), or a 52 - 53 week accounting period. The dates on which the period reported on the return begin and end must be plainly stated in the appropriate space at the top of the return. The accounting period must be the same as that used for federal income tax purposes.

RETURNS FOR PART OF THE YEAR

For information concerning returns filed for part of the year, refer to the instructions for Lines 2 and 9 on Page 17 of this booklet for instructions on annualization and proration.

AMENDED RETURNS

In order to amend the amounts reported for the computation of income or franchise taxes, the taxpayer must file a revised Form CIFT-620, along with a detailed explanation of the changes, and a copy of the federal amended

return (Form 1120X), if applicable. The "AMENDED RETURN" circle on the Louisiana form should be clearly marked.

REPORT OF FEDERAL ADJUSTMENTS

R.S. 47:287.614C requires every taxpayer whose federal return is adjusted to furnish a statement disclosing the nature and amounts of such adjustments within 60 days after the adjustments have been made and accepted. This statement should accompany the amended return.

DECLARATION OF ESTIMATED TAX

R.S. 47:287.654 requires every corporation that can reasonably expect its estimated income tax for the year to be \$1,000 or more to make installment payments of its liability. The term "estimated tax" means the amount the taxpayer estimates to be the Louisiana income tax imposed for the period less the amount it estimates to be the sum of any credits allowable against the tax.

See the instructions pertaining to Form CIFT-620ES for further information, including the addition to the tax for underpayment or nonpayment of estimated income tax.

ROUNDING TO WHOLE DOLLARS

Round cents to the nearest whole dollar on Form CIFT-620. Total prepayments, including any credit carried forward from last year, should also be rounded to the nearest whole dollar.

ALLOCATION AND APPORTIONMENT OF NET INCOME AND FRANCHISE TAXABLE BASE

The Louisiana income tax is imposed only upon that part of the net income of a corporation that is derived from sources within Louisiana. Corporations that do business outside of Louisiana must complete Form CIFT-620A, which provides schedules for the apportionment and allocation of net income.

When a corporation does business within and without Louisiana, the Louisiana franchise tax is imposed only on that part of the total taxable capital that is employed in Louisiana. Such corporations must also complete Form CIFT-620A, which provides schedules for the allocation of the franchise taxable base.

INSTRUCTIONS FOR COMPLETING FORM CIFT-620

ALL TAXPAYERS ARE REQUIRED TO ANSWER LINES A-K.

Lines A through K – All taxpayers must answer the questions in Lines A through K. For Line "G," please enter the corporation's six digit North American Industry Classification System Code (NAICS). For Line K, please see the instructions for Schedule A that contain information about a corporation computing its borrowed capital on the basis of the calendar or fiscal year closing immediately prior to August 28, 2005.

LINE 1A – LOUISIANA NET INCOME

Information regarding the computation of Louisiana net income is provided in the instructions for Schedule D of Form CIFT-620 and Schedule P of Form CIFT-620A. Enter on this line the amount from Schedule D, Line 14 or Schedule P, Line 33.

LINE 1B – S CORPORATION EXCLUSION

R.S. 47:287.732.B provides an S corporation with an exclusion of its Louisiana net income. The exclusion is determined by multiplying Louisiana net income by a ratio calculated by dividing the number of issued and outstanding shares of the S corporation's capital stock owned by Louisiana residents on the last day of the S corporation's taxable year by the total number of issued and outstanding shares of capital stock on the last day of the S corporation's taxable year.

A Louisiana "resident" includes resident estates and trusts and resident and nonresident individual shareholders who have filed a correct and complete Louisiana income tax return and paid the tax due. This ratio is also applicable to a Louisiana net loss to exclude a percentage of the loss from carryback or carryforward treatment.

A SCHEDULE SHOWING THE CALCULATION OF THE EXCLUSION MUST BE ATTACHED TO THE RETURN.

This schedule must include a list of all shareholders of the corporation, designating those who report the S corporation income on a Louisiana tax return. The shareholder information must include the address and Social Security Number, the number of shares held on the last day of the taxable year, and the amount of the distributive share of S corporation net income for each shareholder.

LINES 1C AND 1D – NET OPERATING LOSS CARRYFORWARD OR CARRYBACK

To apply for a tentative refund resulting from the carryback of a net operating loss, use Form R-6701, CIT-624 (Request for a Tentative Refund Resulting from the Election to Carryback a Net Operating Loss).

The amount of net loss may be carried back to each of the three taxable years that precede the taxable year of such loss and/or forward 15 years immediately following the year in which the loss occurred.

A net operating loss generated after a reorganization cannot be carried back to a corporation that does not survive the reorganization. See R.S. 47:287.86(l).

In the case where a federal tax refund or credit arises from the carryback or carryforward of a federal net operating loss, the Louisiana net operating loss must be reduced by the amount of the federal tax refund or credit that applies to the federal income tax deducted on the prior Louisiana return. In calculating the federal tax refund applicable to the loss, consideration must be given to the total federal refund or credit received from all prior periods, including the refund or credit resulting from the investment tax credit carryback. The amount of the refund or credit applicable to Louisiana is determined by multiplying the total refund or credit by a ratio obtained by dividing the federal tax deducted on the original Louisiana return by the total federal tax on the original federal tax return.

In the event that there is no carryback or carryforward of a net operating loss for federal purposes, then as provided in R.S. 47:287.83, the federal income tax deduction should be recomputed to reflect the carryback or carryforward of the net operating loss. The net operating loss carryback or carryforward should be used to reduce the Louisiana taxable income prior to the calculation of the ratio of Louisiana net income on a federal basis to federal net income in the computation of the federal income tax deduction.

A SCHEDULE SHOWING THE CALCULATION OF THE LOSS CARRYFORWARD OR LOSS CARRYBACK MUST BE ATTACHED TO THE RETURN.

LINE 1E – FEDERAL INCOME TAX DEDUCTION

A corporation may increase the amount of its federal income tax deduction by 100% of the amount of **Federal Disaster Relief Credits** claimed on its federal income tax return. If the Federal Income Tax Deduction claimed on Line 1E has been increased by Federal Disaster Relief Credits, enter the amount of the Federal Disaster Relief Credits in the designated area on Line 1E. Attach a schedule that lists the specific federal credit and amount claimed. If a corporation has not claimed Federal Disaster Relief Credits on the federal return, print your federal income tax liability on Line 1E. To compute the federal income tax deduction allowable on the Louisiana return, refer to the worksheet and instructions provided on Pages 27 and 28, respectively.

LINE 2 – LOUISIANA INCOME TAX

The amount of Louisiana income tax is computed on Schedule E of Form CIFT-620.

In the case of a return for part of the year, other than the initial or final return, for purposes of computing the tax due, Louisiana taxable income shall be placed on an annual basis by multiplying the amount thereof by twelve and dividing by the number of months included in the period for which the short period return is required or permitted. The tax on this annualized income is then computed and multiplied by a fraction. The numerator of the fraction is equal to the number of months included in the period for which the short period return is being filed, and the denominator is twelve. This tax is then entered on Line 2 of Form CIFT-620.

LINE 3 – NON REFUNDABLE INCOME TAX CREDITS

Enter the amount from Line 11, Column A from Schedule NRC.

LINE 7A – TOTAL CAPITAL STOCK, SURPLUS, UNDIVIDED PROFITS, AND BORROWED CAPITAL

Enter on this line the total franchise taxable base from Line 25, Column 3 of Schedule A-1 of Form CIFT-620.

LINE 7B – FRANCHISE TAX APPORTIONMENT PERCENTAGE

If all of your business is conducted in Louisiana, enter 100.00 percent on this line. For corporations that do business both within and without Louisiana, complete Schedule N of the Apportionment and Allocation Schedule (Form CIFT-620A). Enter on Line 7B the percent on Line 5 of Schedule N. Carry your percentage to two decimal places.

LINE 7C – FRANCHISE TAXABLE BASE

The total amount of taxable capital attributable to Louisiana is calculated by multiplying Line 7A by Line 7B. Enter the result on this line.

LINE 8 – ASSESSED VALUE OF REAL AND PERSONAL PROPERTY

R.S. 47:606(C) provides that the portion of capital stock, surplus, undivided profits, and borrowed capital allocated for franchise taxation shall in no case be less than the total assessed value of real and personal property in this state for the calendar year preceding that in which the tax is due. The assessed value of real and personal property is generally that value determined for property tax purposes in the area where the property is located. Enter on this line the assessed value of the real and personal property located in Louisiana in 2005.

LINE 9 – LOUISIANA FRANCHISE TAX

The amount of Louisiana franchise tax is computed on Schedule F of Form CIFT-620. The minimum tax is \$10.00.

In the case of a return for part of the year other than the initial or final return, the franchise tax due shall be prorated. To calculate the tax due, the tax for a full year is computed and multiplied by a ratio. The numerator of the ratio is the number of months from the closing date of the prior franchise year to the closing date of the short period return filed, and the denominator is 12.

LINE 10 – NONREFUNDABLE FRANCHISE TAX CREDITS

Enter the amount from Line 12, Column B – Schedule NRC.

LINE 12 – LESS PREVIOUS PAYMENTS

All amounts previously remitted should be claimed as estimated income tax.

LINE 15 – REFUNDABLE TAX CREDITS

Enter the amount from Line 9, Schedule RC.

LINE 16 – NET INCOME AND FRANCHISE TAXES OVERPAYMENT

Enter the net **OVERPAYMENT** of income and franchise taxes on Line 16 after applying any nonrefundable credits entered on Line 15 against the amount shown on Line 14.

If Line 14 is less than or equal to zero and refundable credits have been claimed on Line 15 enter overpayment amount on Line 16. If Line 14 is greater than zero and refundable credits claimed on Line 15 are greater than the amount on Line 14, enter overpayment on Line 16.

If Line 14 is greater than zero and the amount of refundable credits claimed on Line 15 are less than Line 14, an amount is owed to Louisiana. Enter zero on Line 16 and skip Lines 17, 18, and 19 and go to Line 20.

LINE 17 – DONATION OF OVERPAYMENT TO THE MILITARY FAMILY ASSISTANCE FUND

You may donate all or part of your overpayment (Line 16) to The Military Family Assistance Fund. This fund provides assistance to family members of activated Louisiana military personnel.

LINE 21 – DELINQUENT FILING PENALTY

The penalty for failure to file a return on time, except when failure is due to a reasonable cause, is 5 percent of the tax if the delay in filing is for not more than 30 days, with an additional 5 percent for each additional 30 days or fraction thereof during which the failure to file continues.

LINE 22 – DELINQUENT PAYMENT PENALTY

The penalty for failure to pay the tax in full by the date the return is required by law to be filed, determined without regard to any extension of time for filing the return, is 5 percent of the tax not paid for each 30 days, or fraction thereof, during which the failure to pay continues.

Delinquent filing and delinquent payment penalties combined cannot exceed 25 percent. Please see LAC 61:III.2101.

LINE 23 – INTEREST

Important Notice: R.S.47:1601 has changed the annual rate of interest applicable to this return. For calendar year 2006, interest is computed at the rate of 14 percent (.14) per annum on deficiencies that have not become final and nonappealable.

LINE 24 – DONATION TO THE MILITARY FAMILY ASSISTANCE FUND

If you had no refund to donate, or if you wish to donate to the Military Family Assistance Fund, over-and-above the amount of your refund, please enter an amount on Line 24.

LINE 25 – TOTAL AMOUNT DUE

Make payment to the Louisiana Department of Revenue. Do not send cash.

SIGNATURES AND VERIFICATION

The return must be signed by either the president, vice-president, treasurer, assistant treasurer, or any other authorized officer. If receivers, trustees in bankruptcy, or assignees are operating the property or business of the corporation, such officials must execute the return for such corporation. Any person, firm, or corporation that prepares a taxpayer's return must also sign. If a return is prepared by a firm or corporation, the return must be signed in the name of the firm or corporation. This verification is not required when the return is prepared by a regular full-time employee of the taxpayer. Telephone numbers of officers and preparers should be furnished.

GENERAL INFORMATION ON ALL CREDITS

Acts 268 of the 2005 Regular Legislative Session provides for general rules governing the application of tax credits. Credits should be applied in chronological order using the codes provided below. For all credits, you must attach documentation that substantiates the credit, rebate, or tax equalization contract. For additional information on a particular credit, please reference the publication Credits, Exemptions, Exclusions, and Deductions for Individual and Corporation Income Tax, Corporation Franchise Tax, Inheritance Tax and Gift Tax. (R-40058). This publication may be viewed on the Department's website at www.revenue.louisiana.gov.

INSTRUCTIONS FOR SCHEDULE NRC

Below is a list of additional nonrefundable credits available for the taxable year ended December 31, 2005 for Louisiana Corporate Income and Corporate Franchise taxes. For credits against the corporate income tax, please print the credit description, identifying code, and the dollar amount claimed in the appropriate spaces on Lines 1 through 10 of Column A. For credits against the corporate franchise tax, please print the credit description, identifying code, and the dollar amount claimed in the appropriate spaces on Lines 1 through 10 of Column B.

Example:

Credit Description	Code	Amount of Credit Claimed
Vehicle Alternative Fuel	206	500.00

LINE 11 – TOTAL INCOME TAX CREDITS

Add lines 1 through 10 of Column A and print the result here and on CIFT-620, Line 3.

LINE 12 – TOTAL FRANCHISE TAX CREDITS

Add lines 1 through 10 of Column B and print the result here and on CIFT-620, line 10.

CODE

- 100** Credit Description: **Premium Tax** – R.S. 47:227 provides a credit allowable against only corporate income tax for premium taxes paid during the preceding twelve months by an insurance company authorized to do business in Louisiana. A copy of the premium tax return and cancelled checks in payment of the tax must be attached to the return.
- 120** Credit Description: **Bone Marrow** – R.S. 47:287.758 provides a credit allowable against only corporate income tax equal to twenty-five percent of the bone marrow donor expense paid or incurred during the tax year by an employer to provide a program for employees. Please contact the Department for additional information regarding this credit.
- 140** Credit Description: **Nonviolent Offenders** – Acts 285 of the 2005 Regular Legislative Session provides a credit allowable against only corporate income tax for an entity providing full-time employment to an individual who has been convicted of a first-time nonviolent offense. Please contact the Department for additional information regarding this credit.
- 150** Credit Description: **Qualified Playgrounds** – R.S.47: 6008 provides a credit allowable against either corporate income tax or corporate franchise tax for donations to assist qualified playgrounds. The credit shall be an amount equal to the lesser of \$1,000 or one-half of the value of the cash, equipment, goods, or services donated. For corporate income taxable years 1993 through 1999 and corporate franchise taxable years 1994 through 2000, Acts 405 of the 2005 Regular Legislative Session allows an amended return to be filed if this credit was not originally claimed. The amended return must be filed by December 31, 2008. Please contact the Department for additional information regarding this credit.

CODE

- 155** Credit Description: **Debt Issuance** – R.S.47: 6017 provides a credit allowable against either corporate income tax or corporate franchise tax for the filing fee, incurred by an economic development corporation in the preparation and issuance of bonds, paid to the Louisiana State Bond Commission. Please contact the Department for additional information regarding this credit.
- 160** Credit Description: **Contributions to Educational Institutions** – R.S.47:37 and R.S.47:287.755 provides a credit of 40 percent (.40) of the value of tangible property of a sophisticated and technical nature to educational institutions to be applied against only corporate income tax. The institution that receives the donation must furnish to the donor or seller a certification of such donation, contribution, or sale below cost, which shall include the date and the value of other property donated, contributed, or sold.
- 165** Credit Description: **Employee and Dependent Health Ins** – Acts 504 of the 2005 Regular Legislative Session provides a credit allowed against only corporate income tax for a contractor or subcontractor who offers health insurance coverage to full-time employees and their dependents. Please see LAC 61.I.1195 on the Department 's website for information regarding this credit.
- 170** Credit Description: **Donations to Public Schools** – R.S.47:6013 provides a credit against corporate income tax or corporate franchise tax for qualified donations made to a public school. The credit is equal to 40 percent (.40) of the appraised value of a qualified donation of property made to a public school. "Public school" is defined to mean a public elementary or secondary school. "Qualified donation" is defined to mean a donation of immovable property purchased or otherwise acquired by a corporation and donated to a public school immediately adjacent or contiguous to such property. Please contact the Department for additional information regarding this credit.
- 200** Credit Description: **Atchafalaya Trace** – R.S. 25:1226.4 provides a credit allowed against corporate income tax or corporate franchise tax to certain heritage-based cottage industries. You must attach a copy of your contract to the return.
- 206** Credit Description: **Vehicle Alternative Fuel** – R.S.47:287.757 provides a credit allowable against corporate income tax for the conversion of a vehicle to an alternative fuel source. The credit is limited to 20 percent (.20) of the cost of investing in a qualified clean-burning motor vehicle fuel property, with an alternative provision for the purchase by a taxpayer of a motor vehicle that contains qualified clean-burning motor vehicle fuel property installed by the manufacturer. Please contact the Department for additional information regarding this credit.
- 208** Credit Description: **Previously Unemployed** – R.S.47:6004 provides a credit against corporate income tax or corporate franchise tax for hiring the previously unemployed. Please contact the Department for additional information regarding this credit.

- CODE**
- 210** Credit Description: **Recycling Credit** – R.S.47:6005 provides a credit for the purchase of certain equipment and/or service contracts related to recycling. The credit is allowable against corporate income and corporate franchise tax and must be certified by the Louisiana Department of Environmental quality. A copy of the certification must be attached.
- 212** Credit Description: **Basic Skills Training** – R.S.47:6009 provides for a credit allowable against corporate income tax or corporate franchise tax for employers who pay for training to bring employees' reading, writing, or mathematical skills to at least the 12th grade level. The credit is limited to \$250 per participating employee. Please contact the Department for additional information regarding this credit.
- 214** Credit Description: **New Markets Credit** – R.S.47:6016 provides for a credit allowable against corporate income tax or corporate franchise tax if the taxpayer makes certain qualified low-income community investments. Please contact the Department for additional information regarding this credit.
- 216** Credit Description: **Brownsfield Investor Credit** – Acts 156 of the 2005 Regular Legislative Session provides a credit against only corporate income tax to encourage the cleanup, redevelopment, and productive reuse of brownfields in the state. The credit is obtained through the Department of Economic Development and the Department of Environmental Quality. Please contact the Department for information on qualifying for this credit.
- 220** Credit Description: **Dedicated Research** – R.S.51:2203 provides a credit against only corporate income tax of 35 percent (.35) of a cash donation of \$200,000 or more to the Dedicated Research Investment Fund, which is administered by the Louisiana Board of Regents. The Board of Regents must certify to the Department of Revenue that the taxpayer is qualified for the credit. You must attach a copy of your certification to the return.
- 222** Credit Description: **LCDFI Credit** – R.S.51: 3075 et.seq. provide a credit against corporate income tax or corporate franchise tax to encourage the expansion of businesses in economically distressed areas. The Louisiana Office of Financial Institutions administers this program. Please contact the Department for additional information regarding this credit.
- 224** Credit Description: **New Jobs Credit** – R.S.47:34 and R.S.47:287.749 provides a credit against only corporate income tax. A schedule that includes the calculation of the credit must be attached to the return and must also include the following information: (1) Name, address, and Social Security Number of each new employee; (2) Highest number of full-time and qualified part-time employees during the previous year; (3) Highest number of full-time and part-time employees during the current year; (4) Number of new employees hired for new jobs created during this taxable year; and (5) amount of credit carried forward from the previous year. For additional information, please contact the Department.
- 226** Credit Description: **Refunds by Utilities** – R.S.47: 287.664 provides a credit against corporate income tax for certain court ordered refunds made by utilities to its customers. Please contact the Department for additional information.
- CODE**
- 228** Credit Description: **Eligible Re-entrants** – R.S.47:287.748 provides a credit against corporate income tax to encourage the employment in full-time jobs in the state of Louisiana of re-entrants who have convicted of a felony and who have successfully completed the Intensive Incarceration Program as provided for in R.S. 15:574.4. For additional information, please contact the Department.
- 230** Credit Description: **Neighborhood Assistance** – R.S. 47:287.34 and R.S. 47:287.753 provide a credit against corporate income tax for an entity engaged in the activities of providing neighborhood assistance, job training, education for individuals, community services, or crime prevention in the state of Louisiana. The tax credit is limited to seventy percent (.70) of the actual amount contributed for investment in programs approved by the commission of administration or his successor. Such credit for any corporation shall not exceed two hundred fifty thousand dollars annually. For additional information, please contact the Department.
- 251** Credit Description: **Motion Picture Investment** – R.S.47:6007 provides a credit against corporate income tax for taxpayers domiciled in Louisiana, other than motion picture production companies, who invest in a state-certified, motion picture production. For additional information regarding this credit, please refer to Revenue Information Bulletin 06-004 on the Department's website.
- 252** Credit Description: **Research and Development** – R.S.47:6015 provides a credit against either corporate income tax or corporate franchise tax for a taxpayer who claims for the taxable year a federal income tax credit under 26 U.S.C. §41(a) for increasing research activities. Please contact the Department for information regarding this credit.
- 253** Credit Description: **Historic Structures** – R.S.47:6019 provides a credit against corporate income tax or corporate franchise tax if the taxpayer incurs certain expenses during the rehabilitation of a historic structure located in a Downtown Development District. For information regarding this credit, please refer to Revenue Information Bulletin 06-002 on the Department's website.
- 254** Credit Description: **Digital Interactive Media** – Acts 346 of the 2005 Regular Legislative Session provides a credit against corporate income tax for the investment in businesses specializing in digital interactive media. The credit is obtained through the Department of Economic Development and documentation from the Department of Economic Development must be attached to the return.
- 255** Credit Description: **Technology Commercialization** – R.S.51:2354 provides for a credit against corporate income tax or corporate franchise tax of fifteen percent of the amount of money invested by the taxpayer in commercialization costs for one business location. The Louisiana Department of Economic Development must certify the technology commercialization credit and a copy of the certification must be attached to the return.
- 256** Credit Description: **Motion Picture Employment of Resident** – R.S.47:1125.1 provides a credit against corporate income tax or corporate franchise tax for the employment of residents of Louisiana in connection with the production of a motion picture. For additional information regarding this credit, please refer to Revenue Information Bulletin 06-004 on the Department's website.

CODE

- 257** Credit Description: **Capital Company** – R.S.51:1924 provides a credit against corporate income tax for the investment in a certified Louisiana capital company. The credit must be approved by the Commissioner of the Office of Financial Institutions. A copy of the certification from the Office of Financial Institutions must be attached to the return.
- 300** Credit Description: **Biomed/University Research** – R.S.46:813.1 and R.S.17:3389 provide a credit against corporate income tax or corporate franchise tax for a company that establishes research activities in either a Biomedical or University Research and Development Park. You must attach a copy of your contract with the Department of Economic Development to the return.
- 305** Credit Description: **Tax Equalization** – R.S. 47:3202 provides a credit against corporate income tax or corporate franchise tax for tax equalization for certain businesses locating in Louisiana. The credit/exemption is issued by the Department of Economic Development. A copy of the contract must be attached to the return.
- 310** Credit Description: **Manufacturing Establishments** – R.S. 47:4305 provides a credit against corporate income tax or corporate franchise tax to certain manufacturing establishments which have entered into a contract with the Department of Economic Development. A copy of the contract must be attached to the return.
- 315** Credit Description: **Enterprise Zone** – R.S. 51:1782 et. seq. provide a credit against corporate income tax or corporate franchise tax for private sector investments in certain areas, which are designated as “Enterprise Zones”. A copy of the contract is issued by the Department of Economic Development must be attached to your return.
- 320** Credit Description: **Quality Jobs** – R.S.51:2455 provides a credit/rebate against corporate income tax or corporate franchise tax for certain businesses to locate or to expand existing operations within Louisiana. A copy of the contract entered into with the Department of Economic Development must be attached to the return.
- 500** Credit Description: **Other** – Reserved for Future Credits

INSTRUCTIONS FOR REFUNDABLE TAX CREDITS, SCHEDULE RC

Line 1 – A refundable credit is allowed against corporate income tax or corporate franchise tax for 100 percent of the ad valorem taxes paid to political subdivisions in Louisiana, on inventory held by manufacturers, distributors and retailers (R.S. 47:6006). Both a copy of the inventory tax assessment and a copy

of the cancelled check in payment of the tax must be attached to the return.

Line 2—A refundable credit is allowed against corporate income tax or corporate franchise tax for 100 percent of the ad valorem taxes paid to political subdivisions in Louisiana on natural gas held, used, or consumed in providing natural gas storage services or operating natural gas storage facilities (R.S.47:6006).Both a copy of the tax assessment and a copy of the cancelled check in payment of the tax must be attached to the return.

Line 3 – A refundable credit is allowed against corporate income tax or corporate franchise tax for 100 percent of the ad valorem taxes paid on vessels in Outer Continental Shelf Lands Act Waters (R.S. 47:6006.1). The following must be attached to the return: (A) A copy of the inventory tax assessment, (B) a copy of the cancelled check in payment of the tax, along with (C) a completed Form LAT 11 from the Louisiana Tax Commission.

Line 4 – A refundable credit (Acts 485 of the 2005 Regular Legislative Session) is allowed against income tax for investing in certain state-certified musical recording productions and infrastructure. The Department of Economic Development certifies the credit and a copy of the certification must be attached to the return.

Line 5 – A refundable credit is allowed against corporate income tax or corporate franchise tax for up to 40 percent (.40) of the ad valorem taxes paid to Louisiana political subdivisions by a telephone company, with respect to that company's public service properties located in Louisiana (R.S. 47:6014). The credit may be passed to individuals through certain legal entities. See Revenue Information Bulletin 01-004, on the Department's website. A schedule must be attached stating what entity(ies) paid the tax and obtained the credit on the individual's behalf.

Line 6 – A refundable credit is allowed against corporate income tax or corporate franchise tax for purchases by a taxpayer of specialty apparel items from a Private Sector Prison Industry Enhancement (PIE) contractor (R.S. 47:6018). Please contact the Department for further information concerning this credit.

Line 7 – A refundable credit (R.S. 51:1801et.seq.) is allowed against corporate income tax or corporate franchise tax for investing in certain economically depressed areas of the state. The Department of Economic Development certifies the credit and a copy of the certification must be attached to the return.

Line 8 – Reserved for future credits.

Line 9 – Add Lines 1 through 8. Enter the result here and on Line 15 of Form CIFT-620.

BALANCE SHEET AND CORPORATION FRANCHISE TAXABLE BASE

SCHEDULE A - BALANCE SHEET

The balance sheet in Schedule A should reflect the values of any assets as shown on the books, as provided in LAC 61:I.320. The corporation franchise tax law provides that all assets are deemed to have such values as reflected on the books of the corporation subject to examination and revision by the Secretary. The Secretary may increase the book value of assets up to cost to reflect the true value of surplus and undivided profits, but is prohibited from making revisions that would reflect any value below the amount reflected on the books of the taxpayer. A taxpayer may, at his own discretion, reflect values in excess of cost. In determining cost to which the revisions limitation applies, the fair market value of any asset received in an exchange of properties shall, in most cases, be deemed to constitute the cost of the asset to the taxpayer.

For taxable periods beginning after August 28, 2005, a corporation that incurred extraordinary debt as a result of a gubernatorially declared disaster of 2005 may elect to compute its borrowed capital on the basis of the calendar or fiscal year closing immediately prior to August 28, 2005, if: (1) Fifty percent or more of the corporation's revenue derived in the state for the fiscal year closing immediately prior to August 28, 2005, was directly attributable to a Hurricane Katrina or Hurricane Rita Federal Emergency Management Agency Individual Assistance Area and, (2) Fifty percent or more of the corporation's property and assets in the state were situated or used in a Hurricane Katrina or Hurricane Rita Federal Emergency Management Agency Individual Assistance Area on the date of the calendar or fiscal year closing immediately prior to August 28, 2005. Please contact the Department for additional information.

SCHEDULE A-1 COMPUTATION OF FRANCHISE TAX BASE

Corporations shall compute their tax liability on the basis of the portion of the total taxable base employed in Louisiana at the close of the preceding calendar or fiscal year. Acts 2 of the 2004 First Extraordinary Legislative Session provides that the total taxable base is composed of capital stock, surplus, undivided profits, and a portion of borrowed capital as the basis for computing the franchise tax. Complete Lines 1-11 on Schedule A-1 if any intercompany debt appears on the balance sheet at year's end.

DETERMINATION OF TOTAL CAPITAL STOCK, SURPLUS, UNDIVIDED PROFITS, AND BORROWED CAPITAL

CAPITAL STOCK – The term “capital stock” means all stock that is issued and outstanding. However, the cost of treasury stock may be deducted from earned surplus, limited to the extent of the surplus that was available when the treasury stock was acquired. Capital stock, whether par value or not, is deemed to have such value as is reflected on the books, subject to examination and revision by the Secretary, but in no event less than shown on the books.

SURPLUS, UNDIVIDED PROFITS, ETC. – Surplus and undivided profits shall be deemed to have such value as is reflected on the books of the corporation, subject to examination and revision by the Secretary. Reserves other than depreciation, bad debts, other established valuation reserves, etc., should be included. Examples of reserves to be included in surplus and undivided profits are reserves for contingencies, repairs, self-insurance, etc. In addition, any excessive valuation reserve should be included in the taxable base to the extent of such excess. The entire profit on installment obligations should be included in surplus regardless of whether deferred on the books. Many times, the deferred income tax account is included in “Other Liabilities.” Because most items contained in “Other Liabilities” will be subject to the new debt phase-out, consideration must be given to any item reported in “Other Liabilities” that is not truly debt. If that is the case, then 100% of the deferred income tax or any other item must be reported as “Earned surplus and undivided profits.”

In computing surplus and undivided profits, any amounts required by court order to be set aside and segregated in such manner as not to be available for distribution to stockholders or for investment in properties, the earnings from which are distributable to stockholders, may be excluded from the franchise taxable base.

In the event that surplus and undivided profits accounts reflect a negative figure or deficit, such deficit shall reduce the franchise taxable base.

Refer to R.S. 47:605A for information concerning the reduction of surplus for depreciation sustained, but not taken on the books of corporations under the control of a governmental agency.

BORROWED CAPITAL – For the purpose of computing the basis upon which the franchise tax is levied, the term “borrowed capital” includes the following three basic classifications of corporate indebtedness:

1. INDEBTEDNESS MATURING MORE THAN ONE YEAR FROM THE DATE INCURRED

This classification depends solely upon the maturity date of an obligation outstanding on the corporate books at the close of its fiscal or calendar year. Every obligation, indebtedness, or portion thereof, maturing more than one year from the date incurred, must be included in the taxable base as borrowed capital. Any amount of long-term debt reclassified for book purposes as the current portion of long-term debt should not be excluded from the franchise taxable base.

2. INDEBTEDNESS THAT IS NOT PAID WITHIN ONE YEAR FROM THE ORIGINAL DATE INCURRED REGARDLESS OF MATURITY DATE

This classification includes every obligation, indebtedness, or portion thereof that is not paid within one year from the date of inception. For any indebtedness that is extended, renewed, or refinanced, the date such indebtedness was originally incurred or contracted will be considered as

the date incurred for the purpose of determining the age.

3. INDEBTEDNESS OWED TO A SUBSIDIARY OR AFFILIATE

The age or maturity date of this type of indebtedness is unimportant. If an amount is owed to a subsidiary or affiliated company and is substantially used to finance or carry on the taxpayer's business, it is borrowed capital. For this purpose, an affiliated corporation is any corporation that, through stock ownership, directorate control, or other means, substantially influences policy of some other corporation or is influenced through the same channels by some other corporation. Amounts owed to a subsidiary or affiliate may be netted with amounts due from a subsidiary or affiliate only in the case of equally demandable and payable indebtedness, of the same type, between the same two corporations.

Refer to R.S. 47:602 and R.S. 47:603 for those items that are excludable from the franchise taxable base.

SCHEDULE B – ANALYSIS OF SCHEDULE A

Schedule B should include the indebtedness of the corporation not included in the determination of borrowed capital. If additional space is needed, please attach a schedule.

SCHEDULE C – ANALYSIS OF EARNED SURPLUS AND UNDIVIDED PROFITS PER BOOKS

Schedule C should analyze Line 30, Column 2, of Schedule A. Any changes to the balance of earned surplus and undivided profits should be recorded here.

SCHEDULE D – COMPUTATION OF LOUISIANA TAXABLE INCOME**LINE 1 – FEDERAL TAXABLE INCOME**

Enter the federal taxable income of the corporation. If the corporation is included with affiliates in a consolidated federal income tax return, or is not a Subchapter C corporation for federal income tax purposes, enter the net income that would have been reported on the federal return if the corporation had been required to file an income tax return with the Internal Revenue Service on a separate Subchapter C corporation basis.

LINE 2 THROUGH 5 – ADDITIONS TO FEDERAL TAXABLE INCOME

Deductions taken on the federal return for a net operating loss, dividends received, and Louisiana income tax are not allowable deductions on the Louisiana return and must be added back to federal taxable income.

LINE 6 – OTHER ADDITIONS TO FEDERAL TAXABLE INCOME

Refer to R.S. 47:287.71 and R.S. 47:287.73 for other additions to federal taxable income. A schedule of the items on this line must be attached.

LINE 7 – TOTAL ADDITIONS

Add Lines 2 through 6.

LINE 8 – REFUNDS OF LOUISIANA INCOME TAX

To the extent that refunds of Louisiana income tax are included in federal taxable income, they should be deducted on this line (R.S. 47:287.71).

LINE 10 – LOUISIANA DEPLETION IN EXCESS OF FEDERAL DEPLETION

As provided in R.S. 47:287.745, in computing net income in the case of oil and gas wells, there shall be allowed as a deduction cost depletion as defined under federal law or percentage depletion, whichever is greater. Percentage depletion is equal to 22 percent of gross income from the property during the taxable year, excluding any rents or royalties paid or incurred by the taxpayer in respect of the property. This depletion amount should not exceed 50 percent of the net income of the property computed without an allowance for depletion. In determining net income from the property, federal income taxes shall be considered an expense.

LINE 11 – EXPENSES NOT DEDUCTED ON THE FEDERAL RETURN DUE TO IRC SECTION 280(C)

Whenever an otherwise allowable expense for purposes of computing fed-

eral net income is disallowed under the provisions of IRC Section 280(C), an additional deduction in the amount of the disallowed expense is allowed on this line (R.S. 47:287.73). An example of such an expense is salary expense disallowed due to the utilization of the federal jobs credit.

LINE 12 – OTHER SUBTRACTIONS

Refer to R.S.47:287.71, 47:287.73, and 17:3095 for other subtractions from federal net income. A schedule of the items on this line must be supplied.

LINE 13 – TOTAL SUBTRACTIONS

Add Lines 8 through 12.

LINE 14 – LOUISIANA NET INCOME BEFORE S CORPORATION EXCLUSION, LOSS ADJUSTMENTS, AND FEDERAL INCOME TAX DEDUCTION

Add Line 1 plus Line 7, less Line 13. Round to the nearest dollar.

SCHEDULE E – CALCULATION OF INCOME TAX

SCHEDULE F – CALCULATION OF FRANCHISE TAX

SCHEDULE G – RECONCILIATION OF FEDERAL AND LOUISIANA NET INCOME

This schedule MUST be completed by those corporations filing an apportionment and allocation schedule (Form CIFT-620A). Those corporations doing business only within Louisiana do not need to complete this schedule. Refer to the instructions for Schedule D for specific information on additions and subtractions from federal net income.

SCHEDULE H – RECONCILIATION OF INCOME PER BOOKS WITH INCOME PER RETURN

This schedule should be completed by all corporations.

INSTRUCTIONS FOR COMPLETING APPORTIONMENT AND ALLOCATION SCHEDULES – FORM CIFT-620A

GENERAL INFORMATION

IMPORTANT—PLEASE COMPLETE ALL APPLICABLE LINES AND SCHEDULES OF THIS FORM. Failure to furnish complete information will cause the processing of the return to be delayed and may necessitate manual review of the return.

WHO MUST USE FORM CIFT-620A

Corporations that do business both within and without Louisiana must use Form CIFT-620A to apportion and allocate their net income and total taxable capital.

The Louisiana income tax law requires that the apportionment method of reporting must be used in computing the Louisiana portion of a taxpayer's apportionable income unless it can be clearly demonstrated that the use of the apportionment method produces a manifestly unfair result, and permission to use the separate accounting method has been granted by the Secretary. Such permission once secured continues to be effective so long as there is no change in the nature and extent of the Louisiana operations or in their relationship to operations outside of this state. A statement of any such changes in operations should be communicated immediately to the Secretary of Revenue in order that a redetermination may be made as to whether the separate accounting method is permissible.

LOUISIANA CORPORATION FRANCHISE TAX

AVERAGE RATIO – In the allocation of total capital stock, surplus, undivided profits, and borrowed capital to Louisiana, the ratio to be used is the arithmetical average of two separately computed ratios obtained by dividing Louisiana property and assets by total property and assets and Louisiana net sales and other revenue by total net sales and total other revenue. If the denominator in the calculation of either ratio is zero, then that ratio is eliminated as a factor in determining the average of the ratios. Schedules M and N are used to calculate the franchise tax allocation ratio.

CORPORATIONS MERGING

The property and net sales and other revenue of a merging corporation must be included in the ratios of the surviving corporation.

SCHEDULE M – COMPUTATION OF CORPORATE FRANCHISE TAX PROPERTY RATIO

In computing the property ratio, Columns 3 and 4 must be completed. The various classes of property and assets shown below shall be allocated within and without Louisiana on the basis indicated:

CASH – Cash on hand shall be allocated to the state in which located.

CASH IN BANKS AND TEMPORARY INVESTMENTS – Cash in banks and temporary investments shall be allocated to the state in which they have their business situs or, in the absence of a business situs, to the state in which is located the commercial domicile of the taxpayer. The term "temporary cash investments" means investments in government obligations that are maintained for use in current operations and that have a maturity of one year or less from the date incurred or that are less than one year old at balance sheet date. If a cash account shows a deficit balance, then that account should be treated as having a zero balance for purposes of indicating the asset value for Schedule M.

TRADE ACCOUNTS AND TRADE NOTES RECEIVABLE – Such receivables shall be allocated by reference to the transactions from which the receivables arose, on the basis of the location at which delivery was made in the case of the sale of merchandise or the location at which the services were performed in the case of charges for services rendered or the place where the loan was negotiated in the case of a lending business. In the absence of sufficient records of a detailed allocation, the total trade accounts and notes receivable may be apportioned to Louisiana on the basis of the ratio of the amount of merchandise deliveries in Louisiana and charges for services performed in Louisiana during the year to the total amount of merchandise deliveries and charges for services, unless it is apparent that the use of this method produces an unfair and inequitable result.

INVESTMENTS IN AND ADVANCES TO A PARENT OR SUBSIDIARY – Investments in and advances to a parent or subsidiary shall be allocated within and without Louisiana on the basis of the ratio of capital employed in Louisiana by the parent or subsidiary for Louisiana corporation franchise tax purposes. The average of the ratios for Louisiana corporation franchise tax purposes (Line 5 of Schedule N of Form CIFT-620A) of the parent or subsidiary is applied to the investment in or advances to such parent or subsidiary to determine the amount to be attributed to Louisiana.

OTHER INVESTMENTS – Notes, accounts, stocks, and bonds other than those described above and the cash surrender value of life insurance shall be allocated to the state in which they have a business situs, or in the absence of a business situs, to the commercial domicile of the taxpayer.

REAL AND TANGIBLE PERSONAL PROPERTY – Such property shall generally be allocated within and without Louisiana on the basis of actual location. Corporeal movable property of a class that is not normally locat-

ed within a particular state the entire taxable year, such as rolling stock and other mobile equipment that is used in Louisiana, shall be allocated within and without Louisiana by use of a ratio or ratios that shall give due consideration to the actual usage, such as mileage operated or traffic density within and without this state. Mineral leases and royalty interests shall be allocated within and without this state on the basis of the actual location of the property covered by the lease or royalty interest. The value of inventories of merchandise in transit shall be allocated to the state in which their delivery destination is located in the absence of conclusive evidence to the contrary. Refer to Louisiana Administrative Code 61:1.306 for more information on the allocation of specific assets.

OTHER ASSETS – All other assets shall be allocated within or without Louisiana on such basis as may be reasonably applicable to the particular asset and the type of business involved. Investments in or advances to a partnership shall be attributed within and without Louisiana based on the percentage of the partnership's capital employed in Louisiana, determined by the arithmetical average of the following two ratios:

1. The ratio that the partnership's net sales and other revenue in Louisiana bears to the partnership's total net sales and other revenue everywhere; and,
2. The ratio that the partnership's Louisiana property bears to the partnership's total property everywhere.

SCHEDULE N – COMPUTATION OF CORPORATE FRANCHISE TAX APPORTIONMENT PERCENTAGE

LINE 1. Net sales of Merchandise, charges for services, and other revenues – The various classes of income shown below shall be allocated within and without Louisiana on the basis indicated:

A. SALES – The total amount of net sales should be equal to gross receipts less returns and allowances. Sales attributable to this state shall be all sales made in the regular course of business where the goods, merchandise, or property are received in this state by the purchaser. In the case of delivery of goods by common carrier or by other means of transportation, including transportation by the purchaser, the place at which the goods are ultimately received after all transportation has been completed shall be considered as the place at which the goods are received by the purchaser. However, direct delivery into this state by the taxpayer to a person or firm designated by a purchaser from within or without the state shall constitute delivery to the purchaser in this state. Sales of scrap materials and by-products are construed to meet the requirements for inclusion in the sales factor. Revenue derived from a sale of property not made in the regular course of business shall not be considered. Therefore, sales made other than to customers, such as stocks and bonds and revenues or gains on the sale of property other than stock in trade should not be included as net sales of merchandise. Whenever a transaction is determined to be a sale that is not to be included as a sale to customers in the regular course of business, the amount does not constitute "other revenue" so as to qualify for inclusion in either the numerator or the denominator of the allocation ratio.

B. SERVICES – Income from services other than those described below shall be attributed within and without Louisiana on the basis of the location at which the services are rendered.

AIR TRANSPORTATION – Revenues attributable to Louisiana from air transportation shall include all gross receipts derived from passenger journeys and cargo shipments originating in Louisiana.

PIPELINE TRANSPORTATION – Other revenues attributable to this state derived from the transportation of crude petroleum, natural gas, petroleum products, or other commodities for others through pipelines

shall include all gross revenue derived from operations entirely within this state, plus a portion of any revenue from operations partly within and partly without this state, based upon the ratio of the number of units of transportation service performed in Louisiana in connection with such revenue to the total of such units. A unit of transportation service shall be the transportation of any designated quantity of crude petroleum, natural gas, petroleum products, or other commodities for any designated distance.

OTHER TRANSPORTATION – Other revenues attributable to this state derived from transportation other than by aircraft or pipeline shall include all such income that is derived entirely from sources within this state, and a portion of revenue from transportation partly within and partly without, to be prorated subject to rules and regulations of the Secretary, which shall give due consideration to the proportion of service performed in Louisiana.

C. OTHER REVENUES – Revenues other than those from sales shall be allocated to Louisiana on the basis indicated below:

(i) RENTS AND ROYALTIES – Income from rents and royalties shall be allocated within and without Louisiana on the basis of the location or situs of the property from which the rents and royalties are derived. Royalties or similar revenue from the use of patents, trademarks, copyrights, secret processes, and other similar intangible rights shall be attributed to the state or states in which such rights are used.

(ii) DIVIDENDS AND INTEREST FROM A PARENT OR SUBSIDIARY – Such amounts shall be allocated within and without Louisiana on the basis of the ratio of the capital employed in Louisiana by the parent or subsidiary. The average of the ratios for Louisiana franchise tax purposes (Line 5 of Schedule N of Form CIFT- 620A) of the parent or subsidiary is applied to the amount of dividends and other revenues received from such parent or subsidiary to determine the amount to be attributed to Louisiana. Interest on customers' notes and accounts shall be attributed to the state in which such customers are located.

(iii) OTHER DIVIDENDS AND INTEREST – Other dividends and interest shall be attributed to the state in which the securities or credits producing such revenue have their situs, which shall be at the business situs of such securities or credits, if they have been so used in connection with the taxpayer's business as to acquire a business situs, or in the absence of a business situs, shall be at the commercial domicile of the taxpayer.

(iv) ALL OTHER REVENUES – All other revenues shall be attributed within or without Louisiana on the basis of such ratio or ratios as may be reasonably applicable to the type of revenue and business involved. Revenues from partnerships shall be attributed within and without Louisiana based on the percentage of the partnership's capital employed in Louisiana, determined by the arithmetical average of the following two ratios:

- a. The ratio that the partnership's net sales and other revenue in Louisiana bears to the partnership's total net sales and other revenue everywhere; and,
- b. The ratio that the partnership's Louisiana property bears to the partnership's total property everywhere.

LINE 3 – NET SALES OF MANUFACTURING CORPORATIONS

Corporations engaged in the business of manufacturing are required to use a third ratio in computing the franchise tax apportionment ratio. This is the ratio of net sales made to customers in the regular course of business attributable to Louisiana to the total net sales made to customers in the regular course of business. These sales are the same as those reported on

Schedule N, Line 1A. For purposes of this requirement, the term “business of manufacturing” shall not include the following:

- Any taxpayer whose income is primarily derived from the production or sale of unrefined oil and gas.
- Integrated oil companies that refine, produce, and have marketing operations, whose income in Louisiana is principally derived from production and sale of unrefined oil and gas, and who also engage in significant marketing of refined petroleum products in Louisiana.
- Certain manufacturers of alcoholic beverages.

Manufacturing need not be the primary activity of the corporation. Any manufacturing activity will result in the use of this ratio.

LOUISIANA NET INCOME

SCHEDULE P – COMPUTATION OF LOUISIANA NET INCOME

All corporations should complete Column 3. Those corporations that have been granted permission to use the separate accounting method should complete both Columns 2 and 3. All lines should be completed. These lines should be the same as the federal return except for the modifications under R.S. 47:287.71, 47:287.73, and 17:3095. See the instructions for Schedule D on Form CIFT-620 for additional information concerning these modifications.

LINE 4 – DIVIDENDS

Per R.S. 47:287.73, dividends paid from corporate income that has borne Louisiana income tax are not taxable to the receiving corporation.

LINES 29 THROUGH 33

Louisiana does not apply the business/nonbusiness concepts outlined in the Multistate Tax Compact. Irrespective of whether the net income derived from sources within Louisiana is determined by use of the apportionment method or the separate accounting method, the law designates certain classes of income as “allocable income” that must be accounted for on a separate (direct) basis. The classes of income designated as “allocable income” and the basis upon which such income should be allocated are as follows:

- A. Rents and royalties from immovable or corporeal movable property must be allocated to the state where the property is located at the time the income is derived. Royalties or similar revenue from the use of patents, trademarks, copyrights, secret processes, and other similar intangible rights must be allocated to the states in which such rights are used. The use referred to is that of the licensee.
- B. Net profits and losses from sales or exchanges of property not made in the regular course of business must be allocated to the state where the property is located at the time of the sale or exchange. This includes such items as stocks, bonds, notes, land, machinery, and mineral rights.
- C. Other net allocable income:

Interest on customers' notes and accounts, except when such interest is from the primary business of making loans, must be allocated by reference to the transaction from which the receivable arose (to the state where delivery was made in the case of sales of merchandise; where services were performed in the case of charges for services; etc.). Interest on customers' accounts when the primary business is making loans is not allocable income.

Other interest and dividends must be allocated to the state in which the securities or credits producing such income have their situs, which is the business situs of such securities or credits, if they have been so used in connection with the taxpayer's business as to acquire a business situs, or, in the absence of such a business situs, the commercial domicile of the taxpayer. Interest on securities and credits having a situs in Louisiana received by a corporation from another corporation which is controlled by the former through ownership of 50% or more of the voting stock of the latter, must be allocated to the state or states in which the real and tangible personal property of the controlled corporation is located, on the basis of the ratio of the value of such property located in Louisiana to the total value of such property within and without the state. Dividends upon stock having a situs in Louisiana received by a corporation from another corpo-

ration which is controlled by the former, through ownership of 50% or more of the voting stock of the latter, must be allocated to the state or states in which is earned the income from which the dividends are paid, in proportion to the respective amounts of such income earned in each state.

Income from construction, repair, or other similar services must be allocated to the state in which the service is performed. The phrase “other similar services” means any work that has as its purpose the improvement of immovable property belonging to a person other than the taxpayer where a substantial portion of the work is performed at the location of such property, whether or not such services actually result in improvements to the property.

Estates, trusts, and partnerships having a corporation as a member or beneficiary must allocate and apportion their income within and without the state in accordance with the processes and formulas prescribed for corporations, and the share of any corporate member or beneficiary in the net income from sources in this state, so computed, must be allocated to this state in the return of the member or beneficiary.

CALCULATION OF NET ALLOCABLE INCOME – From the total gross allocable income from all sources and from gross allocable income allocated to Louisiana, there shall be deducted all expenses, losses, and other deductions, except federal income taxes, allowable under the Louisiana income tax law that are directly attributable to such income, plus a ratable portion of the allowable deductions, except federal income taxes, that are not directly attributable to any item or class of gross income.

Louisiana Administrative Code 61:1.1130 provides that overhead expense attributable to items of gross allocable income derived from sources within and without Louisiana, except gross allocable income from rent of immovable or corporeal movable property or from construction, repair, or other similar services, may be determined by any reasonable method that clearly reflects net allocable income from such items of income. It further provides that the amount of overhead expense attributable to total gross allocable income derived from rent of immovable or corporeal movable property, or from construction, repair, or other similar services shall be determined by multiplying total overhead expense by the arithmetical average of the following two ratios:

- a. The ratio of the amount of total gross allocable income derived from rent of immovable or corporeal movable property and from construction, repair, or other similar services to total gross income derived from all sources.
- b. The ratio of the amount of direct cost incurred in the production of total gross allocable income derived from rent of immovable or corporeal movable property and from construction, repair, or other similar services to total direct cost incurred in the production of gross income from all sources.

Overhead expense attributable to Louisiana gross allocable income derived from rent of immovable or corporeal property and from construction, repair, or other similar services shall be determined by multiplying overhead expense attributed to total gross allocable income derived from rent of immovable or corporeal movable property and from construction, repair, or other similar services by the arithmetical average of two ratios, as follows:

- a. The ratio of the amount of Louisiana gross allocable income derived from rent of immovable or corporeal movable property and from con-

struction, repair, or other similar services to total gross allocable income from such sources.

- b. The ratio of the amount of direct cost incurred in the production of Louisiana gross allocable income derived from rent of immovable or corporeal movable property and from construction, repair, or other similar services to total direct cost incurred in the production of such income.

In addition to direct expenses and a ratable portion of overhead expenses, Louisiana Administrative Code 61:I.1130 specifies the method for attributing a portion of interest expense to allocable income. The regulation is based on the concept of the fungibility of money and requires that interest expense ordinarily be allocated to all of the taxpayer's income-producing activities and properties, regardless of the specific purpose for which the borrowing was incurred.

The amount of interest expense that is applicable to investments that produce or that are held for the production of allocable income within and without Louisiana is determined by multiplying the total amount of interest expense by a ratio, the numerator of which is the average value of investments that produce or that are held for the production of allocable income, and the denominator of which is the average value of all assets of the taxpayer. The amount of interest expense that is applicable to investments that produce or that are held for the production of Louisiana allocable income is determined by multiplying the interest expense attributed to total allocable investments from all sources by a ratio, the numerator of which is the average value of investments that produce or that are held for the production of Louisiana allocable income, and the denominator of which is the average value of investments that produce or that are held for the production of allocable income within and without Louisiana.

LINES 29A THROUGH 29C – ALLOCABLE INCOME FROM ALL SOURCES

Enter on Lines 29A through C of Column 2 the total allocable income of each class, from all sources, net of all applicable expenses. In Column 3 of Line 29C, enter the total net allocable income.

LINES 30 AND 31 – NET INCOME SUBJECT TO APPORTIONMENT AND NET INCOME APPORTIONED TO LOUISIANA

Subtract Line 29C, Column 3, from Line 28 and enter the difference on Line 30. Multiply the amount on Line 30 by the percentage from Schedule Q, Line 6, and enter the result on Line 31.

LINES 32A THROUGH 32C – NET INCOME ALLOCABLE TO LOUISIANA

Enter on Lines 32A through C of Column 2 the allocable income of each class from Louisiana sources, net of all applicable expenses. In Column 3 of Line 32C, enter the total of such net allocable income.

LINE 33 – Add the net income apportioned to Louisiana, Line 31, to the net income allocated to Louisiana, Line 32C, Column 3. If the separate method of accounting was used, enter the amount from Line 27 instead. Also enter this amount on Page 1, Line 1A, of Form CIFT- 620.

Overhead expense attributable to Louisiana gross allocable income derived from rent of immovable or corporeal property and from construction, repair, or other similar services shall be determined by multiplying overhead expense attributed to total gross allocable income derived from rent of immovable or corporeal movable property and from construction, repair, or other similar services by the arithmetical average of two ratios, as follows:

- a. The ratio of the amount of Louisiana gross allocable income derived from rent of immovable or corporeal movable property and from construction, repair, or other similar services to total gross allocable income from such sources.
- b. The ratio of the amount of direct cost incurred in the production of

Louisiana gross allocable income derived from rent of immovable or corporeal movable property and from construction, repair, or other similar services to total direct cost incurred in the production of such income.

In addition to direct expenses and a ratable portion of overhead expenses, Louisiana Administrative Code 61:I.1130 specifies the method for attributing a portion of interest expense to allocable income. The regulation is based on the concept of the fungibility of money and requires that interest expense ordinarily be allocated to all of the taxpayer's income-producing activities and properties, regardless of the specific purpose for which the borrowing was incurred.

The amount of interest expense that is applicable to investments that produce or that are held for the production of allocable income within and without Louisiana is determined by multiplying the total amount of interest expense by a ratio, the numerator of which is the average value of investments that produce or that are held for the production of allocable income, and the denominator of which is the average value of all assets of the taxpayer. The amount of interest expense that is applicable to investments that produce or that are held for the production of Louisiana allocable income is determined by multiplying the interest expense attributed to total allocable investments from all sources by a ratio, the numerator of which is the average value of investments that produce or that are held for the production of Louisiana allocable income, and the denominator of which is the average value of investments that produce or that are held for the production of allocable income within and without Louisiana.

LINES 29A THROUGH 29C - ALLOCABLE INCOME FROM ALL SOURCES

Enter on Lines 29A through C of Column 2 the total allocable income of each class, from all sources, net of all applicable expenses. In Column 3 of Line 29C, enter the total net allocable income.

LINES 30 AND 31 – NET INCOME SUBJECT TO APPORTIONMENT AND NET INCOME APPORTIONED TO LOUISIANA

Subtract Line 29C, Column 3, from Line 28 and enter the difference on Line 30. Multiply the amount on Line 30 by the percentage from Schedule Q, Line 6, and enter the result on Line 31.

LINES 32A THROUGH 32C – NET INCOME ALLOCABLE TO LOUISIANA

Enter on Lines 32A through C of Column 2 the allocable income of each class from Louisiana sources, net of all applicable expenses. In Column 3 of Line 32C, enter the total of such net allocable income.

Line 33 – Add the net income apportioned to Louisiana, Line 31, to the net income allocated to Louisiana, Line 32C, Column 3. If the separate method of accounting was used, enter the amount from Line 27 instead. Also enter this amount on Page 1, Line 1A, of Form CIFT- 620.

SCHEDULE Q – COMPUTATION OF INCOME TAX APPORTIONMENT PERCENTAGE

Except when separate accounting is permitted or required, net apportioned income or loss is computed by multiplying the total net apportionable income or loss by the Louisiana apportionment percent determined in accordance with the provisions of R.S. 47:287.95. The apportionment percentage is determined by the principal activity of the business. In computing the apportionment percentage, only items that are of an apportionable nature or that relate to the production of apportionable income should be included. When the denominator of any ratio is zero, the ratio is eliminated in the calculation of the arithmetical average of the ratios.

The apportionment percentages as provided in the law are as follows:

BUSINESSES OTHER THAN THOSE DESCRIBED BELOW – The Louisiana apportionment percent of any taxpayer whose net apportionable income is derived primarily from any business not described below shall be the arithmetical average of three ratios, as follows:

1. The ratio of net sales made in the regular course of business and other gross apportionable income attributable to this state to the total net sales made in the regular course of business and other gross apportionable income of the taxpayer.
2. The ratio of the amount paid by the taxpayer for salaries, wages, and other compensation for personal services rendered in this state to the total amount paid by the taxpayer for salaries, wages, and other compensation for personal services in connection with the production of net apportionable income.
3. The ratio of the value of the immovable and corporeal movable property owned by the taxpayer and located in Louisiana to the value of the immovable and corporeal movable property owned by the taxpayer and used in the production of the net apportionable income.

TELEVISION AND RADIO BUSINESSES - SEE R.S. 47:287.95(K)

MANUFACTURING OR MERCHANDISING - The Louisiana apportionment percent of any taxpayer whose net apportionable income is derived primarily from the business of manufacturing or merchandising (manufacturing, producing, and/or selling tangible personal property) shall be the arithmetical average of four ratios, which are the three ratios described above with the ratio of net sales described being counted twice.

This provision does not apply to the following:

- Any taxpayer whose net apportionable income is primarily derived from the production or sale of unrefined oil and gas.
- Any taxpayer subject to the tax imposed pursuant to Chapter 8 of Subtitle II of Title 47 of the Louisiana Revised Statutes (Tobacco Tax).

AIR TRANSPORTATION – The Louisiana apportionment percent of any taxpayer whose net apportionable income is derived primarily from the business of transportation by aircraft shall be the arithmetical average of two ratios, as follows:

1. The ratio of the amount of gross apportionable income derived from Louisiana sources to the total gross apportionable income of the taxpayer.
2. The ratio of the value of immovable and corporeal movable property, other than aircraft, owned by the taxpayer and located in Louisiana to the value of all immovable and corporeal movable property, other than aircraft, owned by the taxpayer and used in the production of apportionable income.

Wages and salaries are not considered.

TRANSPORTATION OTHER THAN AIR OR PIPELINE – The Louisiana apportionment percent of any taxpayer whose net apportionable income is derived primarily from the business of transportation, other than aircraft or pipeline, shall be the arithmetical average of two ratios as follows:

1. The ratio of the amount of gross apportionable income from Louisiana sources to the total amount of gross apportionable income of the taxpayer.
2. The ratio of the value of immovable and corporeal movable property owned by the taxpayer and located in Louisiana to the value of all immovable and corporeal movable property owned by the taxpayer and used in the production of apportionable income.

Wages and salaries are not considered.

SERVICE ENTERPRISES – The Louisiana apportionment percent of any taxpayer whose net apportionable income is derived primarily from a service business in which the use of property is not a substantial income-producing factor shall be the arithmetical average of two ratios, as follows:

1. The ratio of the gross apportionable income of the taxpayer from Louisiana sources to the total gross apportionable income of the taxpayer.
2. The ratio of the amount paid by the taxpayer for salaries, wages, and other compensation for personal services rendered in Louisiana to the total amount paid by the taxpayer for salaries, wages, and other compensation for personal services in connection with the production of the net apportionable income.

Property is not considered.

LOAN BUSINESS – The Louisiana apportionment percent of any taxpayer whose net apportionable income is derived primarily from the business of making loans shall be the arithmetical average of two ratios, as follows:

1. The ratio of the amount of the loans made by the taxpayer in this state to the total amount of loans made by the taxpayer.
2. The ratio of the amount paid by the taxpayer for salaries, wages, and other compensation for personal services rendered in Louisiana to the total salaries and wages paid by the taxpayer in connection with the production of the net apportionable income.

Property is not considered.

The income tax revenue and wage ratios are calculated on Schedule Q of Form CIFT-620A. The income tax property ratio is calculated on Schedule M of Form CIFT-620A.

INCOME TAX PROPERTY RATIO – The value of immovable and corporeal movable property owned by the taxpayer and used in the production of net apportionable income is a factor in each formula except those provided for the loan businesses and certain service businesses. Where only a part of the property is used in the production of apportionable income, only the value of that portion so used shall be included in the property ratio. However, where the entire property is used in the production of both allocable and apportionable income, such as a railroad track owned by the taxpayer and used jointly with another, the value of the entire property shall be included in the property ratio. Idle property and property under construction, during such construction and prior to being placed in service, shall not be included in the property ratio. Property held as reserve or standby facilities, or property held as a reserve source of materials shall be considered used. The value of inventories of merchandise in transit shall be allocated to the state in which their delivery destination is located in the absence of conclusive evidence to the contrary. The value of property is cost to the taxpayer, less a reasonable reserve for depreciation, depletion, and obsolescence. Such reserves, reflected on the books of the taxpayer, shall be used in determining value, subject to the right of the Secretary to adjust the reserves, when in his opinion, such action is necessary to reflect the fair value of the property.

Refer to the corporate franchise tax instructions for Schedule M for additional information concerning the allocation of property to Louisiana in Columns 5 and 6 of Schedule M. Louisiana Administrative Code 61:I.1134 provides for specific allocation rules for rolling stock and other mobile equipment.

INCOME TAX WAGE RATIO – A member of an affiliated group that serves as a “common paymaster” must eliminate from its wage ratio all payrolls that were paid on behalf of an affiliate, charged to the affiliate, and which do not represent salary, wages, or other compensation of the common paymaster. In turn, these amounts must be reflected in the wage ratio of the affiliate.

INSTRUCTIONS FOR FEDERAL INCOME TAX DEDUCTION WORKSHEET

LINES 1B and 1C – As provided in R.S. 47:287.83, no federal income tax deduction shall be allowed on net income upon which no Louisiana tax has been incurred, or upon which, for any reason whatsoever, no Louisiana income tax will be paid. Since no tax will be paid on the income reduced by the net operating loss carryforward and the net operating loss carryback, they must be subtracted from Louisiana net income.

LINE 2 – In order to make Louisiana net income and federal net income comparable, Louisiana net income should be converted to a federal basis. Items of difference between federal and state net income are divided into “compensating items” and “noncompensating items.” “Compensating items” are those differences in items of deduction or items of net income for a particular year that arise solely by reason of the fact that the item is accounted for in different periods for federal and Louisiana income tax purposes (example: depreciation). “Noncompensating items” are any items of difference between federal and Louisiana income or deductions for a particular year other than those defined as “compensating items.” These items generally arise from a difference in tax law between federal and state and will never adjust themselves (example: depletion, dividend exclusion, Louisiana income tax).

Items of difference that relate to apportionable income should have the apportionment percentage applied before computing the adjustment amount. Items of difference that relate to allocable income are considered only if they relate to Louisiana allocable income. The apportionment percentage is not applied to these items.

“Noncompensating items” of addition can be added only to the extent of the “noncompensating items” of subtraction. “Noncompensating items” of subtraction are not limited. “Compensating items” of addition and subtraction are allowed with no limitation.

LINE 5 – The federal net income is adjusted to account for expenses that would have been allowed as deductions on the federal return, but were disallowed because of the provisions of IRC Section 280(C). An example of such an expense is the salary expense disallowed due to the utilization of the jobs credit.

LINE 8 – The federal income tax liability is the actual tax liability after being reduced for all credits except the alternative minimum tax credit. A corporation that files, or is included in a consolidated federal income tax return, must allocate a portion of the consolidated tax liability before determining the deductible portion. In its basic application, the method for allocating the consolidated tax is outlined here. A spread of each member in the consolidated group must be prepared as if each company filed as a separate company for federal income tax purposes. All loss companies should be eliminated in the spread. The tax for each company should be computed on a separate basis. All tax credits should be applied to the specific company to which they relate. A ratio of each company’s separate company tax to the total tax for all companies computed on a separate company basis should be calculated. This ratio is then applied to the actual consolidated tax liability. Refer to Louisiana Administrative Code 61:1.1122 and 1123 for additional information for more complex situations.

LINE 9 – Under most circumstances, the alternative minimum tax is not deductible on the Louisiana return. The tax is deductible only to the extent that Louisiana tax is paid on income on which alternative minimum tax has been paid and no regular federal income tax will be paid. Refer to Louisiana Administrative Code 61:1.1122 for further explanation.

LINE 10 – The environmental tax is not deductible as a federal income tax deduction; however, it is deducted as a line item deduction in arriving at federal net income.

LINE 13 – Louisiana provides a deduction (from Louisiana income) for federal income taxes paid on Louisiana income. Generally, when the federal income tax liability is decreased by federal credits, the amount of Louisiana income tax liability increases. To prevent Louisiana taxpayers from paying additional state income tax because they received federal disaster relief credits, you may increase the amount of your Louisiana federal income tax deduction by the amount of certain federal disaster relief tax credits claimed on your 2005 fed-

eral income tax form. The modification to the Louisiana federal income tax deduction **can only be for federal disaster relief credits claimed in either the Hurricane Katrina or Hurricane Rita Disaster Areas.** At press time for this form, The Louisiana Secretary of Revenue has, through LAC 61:1.601, determined which federal credits are disaster relief credits. Below are the federal credits that have been established to be federal disaster relief credits:

1. Employee Retention Credit – Provides a credit of 40 % of the qualified wages paid by an eligible employer to an eligible employee in the Gulf Opportunity Zone (GO Zone) area or the Rita GO Zone area.
2. Work Opportunity Credit – Provides a credit to an employer who employs individuals from certain targeted groups. The Katrina Emergency Tax Relief Act designates Hurricane Katrina Employees as members of a targeted group. The credit can be up to 40 % of qualified first year wages, which are capped at \$6,000. For purposes of modifying the Louisiana federal income tax deduction, only the amount with respect to wages paid to Hurricane Katrina employees is the allowed credit
3. Rehabilitation Tax Credit – Provides an increase in the credit for Certified Historic Structures and Qualified Rehabilitated Buildings located in the GO Zone. The credit is increased from 20 % to 26 % for Certified Historic Structures and increased from 10 % to 13 % for Qualified Rehabilitated Buildings. The **INCREASE ONLY** in the Rehabilitation Tax Credit, with respect to the rehabilitation of buildings is the allowed credit for purposes of modifying the Louisiana federal income tax deduction.

Note: The Employee Retention Credit, the Katrina disaster relief portion of the Work Opportunity Credit and the **INCREASE ONLY** in the Rehabilitation Tax Credit are part of the general business credit under IRC §38. If the general business credit is limited, the lesser of the amount equal to total disaster relief credits that are components of the general business credit or the general business credit will be allowed as disaster relief credits granted for the Hurricane Katrina presidential disaster areas or Hurricane Rita Disaster presidential disaster areas.

4. Hope Scholarship and Lifetime Learning Credits – Both of these credits are available for “qualified tuition and related expenses” as defined by federal law. The Hope Scholarship and Lifetime Learning credits for students attending an eligible education institution located in the Gulf Opportunity Zone have been temporarily expanded. Originally, the Hope Scholarship Credit provided a nonrefundable credit of up to \$1,500 per student per year for qualified tuition and related expenses paid for the first two years of the student’s post-secondary education in a degree or certificate program. The Hope Scholarship Credit is increased to 100 % of the first \$2,000 in qualified tuition and related expenses and 50 % of the next \$2,000 of qualified tuition and related expenses for a maximum credit of \$3,000 per student. Originally, The Lifetime Learning Credit provided a credit equal to 20 % of qualified tuition and related expenses incurred during the taxable year on behalf of the taxpayer, the taxpayer’s spouse, or any dependents. Up to \$10,000 of qualified tuition and related expenses per taxpayer return are eligible for the Lifetime Learning Credit. The Lifetime Learning credit rate is increased from 20 % to 40 %. Thus, the maximum amount of the credit is \$4,000 or 40 % of \$10,000. The **INCREASE ONLY** in either the Hope Scholarship Credit or the Lifetime Learning Credit, is the allowed credit for purposes of modifying the Louisiana federal income tax deduction.
5. Employer-Provided Housing Credit – Provides for a temporary credit to a qualified employer of 30 % of the value of the lodging excluded from the income of a qualified employee. For purposes of modifying the Louisiana federal income tax deduction, only the amount with respect to the 30 % of the value of the lodging excluded from the income of a qualified Hurricane Katrina employee(s) is the allowed credit.

In order for your modified Louisiana federal income tax deduction to be allowed, please attach a copy of the appropriate federal form(s) and a schedule specifying the credits claimed on your return.

LINE 14 – Add Lines 12 and 13.
