General Information

Louisiana Revised Statute 47:287.501 provides that an organization described in Internal Revenue Code Sections 401(a) or 501 shall be exempt from income taxation to the extent the organization is exempt from income taxation under federal law, unless the contrary is expressly provided. Accordingly, an exempt organization that has income from an unrelated trade or business and files a Federal Form 990-T with the Internal Revenue Service is subject to file and report its Louisiana-sourced unrelated business income to Louisiana. Louisiana Administrative Code 61:1.1140 and Revenue Information Bulletin 09-009 have been published providing guidance whereby these organizations are not exempt from taxation on the Louisiana-sourced unrelated business income or income not included under I.R.C. Sections 401(a) or 501, and they are required to file a Form CIFT-620 reporting such income.

This worksheet will serve as a guide in determining the amount of Louisiana-sourced unrelated business income that the organization must report and the amount of federal income tax that is allowed as a deduction. The instructions for each line on the worksheet refers to a corresponding line or schedule for Form CIFT-620. When completing this worksheet, include only income items related to the production of unrelated business income. Also note that franchise tax computations on both forms are not required to be completed if these organizations are not subject to the Louisiana Franchise Tax.
