

### Wage bracket tables and instructions

- Select the set of tables that corresponds to the payroll period of the employee.
- With the use of the information obtained from Form R-1300 (L-4), Employee's Withholding Exemption Certificate, determine which column of the tables to use.
  - If your employee claims neither himself, his spouse, nor any dependency credits, use Column 0.

- If your employee claims only himself, whether he is married or not, use Column 1. Also, use the appropriate subcolumn for the number of dependency credits he is claiming.
- If your employee claims himself and his spouse, use Column 2. Also, use the appropriate subcolumn for the number of dependency credits he is claiming.

Add 4.80% for amounts in excess of \$194

**Exemption:** Husband, wife, or single person

**Dependency credit:** Child, stepchild, etc., as described in Internal Revenue Code, Section 152.

**Adjustments to wage bracket tables**

Provision is made in each of the wage bracket withholding tables for withholding personal exemption for a single and for a married person, up to and including six credits for dependents. There is no provision for withholding based on head-of-family status. Such taxpayers may claim only a single withholding personal exemption.

When an employee has more than six dependents, the amount to be withheld may be determined by reducing the tax shown in the column for six dependents by the amount shown at right for the applicable payroll period multiplied by the number of dependents over six.

Payroll Period	Amount of Reduction
Daily	\$.08
Weekly	.40
Biweekly	.80
Semimonthly	.85
Monthly	1.70

When the employee claims only credits for dependents and no withholding personal exemption, the amount to be deducted and withheld should be determined by reducing the amount selected under the column for employees claiming no exemption or credits by the amount shown above multiplied by the number of dependents claimed.
